

# Auction & Donation Information

## BETTER TOGETHER

Adventure Canada is proud to support a variety of worthwhile causes through our on-board auctions and fundraising efforts. We choose two organizations or projects to support on each expedition, which connect to the local region, our expedition team, our Better Together corporate partnerships, and one or more of our Regenerative Travel Plan pillars: climate action, environmental conservation, cultural revitalization, and community wellbeing.

In years past, our on-board auctions have seen great success and helped fundraise thousands of dollars—all thanks to the enthusiasm and creative contributions of our expedition team! We welcome your participation and creative contribution of auction items once again this year.

Some successful auction items from years past include:

- Private Zodiac cruises with specialized interpretation
- Signed books, films, or musical albums
- Original artworks created during the expedition
- Private concerts or readings
- Personalized, handmade crafts or jewelry
- Specialty products that relate to the region we're travelling in
- Private lessons or workshops

We encourage you to consider what items or skills you can contribute to our trip auctions this year and please plan to bring your ideas with you on board. The Program Director will connect with you early in the trip to begin the process of planning each auction.

Outside of our designated auctions, guests are also invited to donate to any of the causes found in the Better Together document within their cabin folders. More information about the two fundraising efforts applicable to each trip will be added to your expedition package.

We're looking forward to your support giving back to the people and places we visit!
