Art Supply Contribution for Mittimatalik Community

The art of the Inuit people is beautiful. The Travel Agent Next Door (who is hosting a group of travel advisors onboard) wanted to invite guests to contribute an art supply item for the community of Mittimatalik. This will go to support the adults and children with the tools they need to continue their craft because shipping materials up north is relatively expensive. This is a great enhancement to the trip that will go to the Mittimatalik/Pond Inlet community.

Please consider a contribution to the community, which would be 1 or 2 items, such as:

- Paint brushes
- Paint
- Palettes
- Sketch pads
- Small easels
- Markers
- Pencils
- Any other general art supplies

You could get an item from your local art store or even a dollar store. Or ask your local community centre or art school and see if they have any items that are not being used, which they are okay to give away.

One item per suitcase is not heavy but makes a big difference to the total amount we can give. It is so rewarding to support and help the artists and the youth carving out their talents. And this would be a great memory for you to bring home. The items will be collected onboard.

Thank you for helping us enhance the art of the local communities we visit.

Yours,

Adventure Canada team & The Travel Agent Next Door
