

Staying Dry at Night

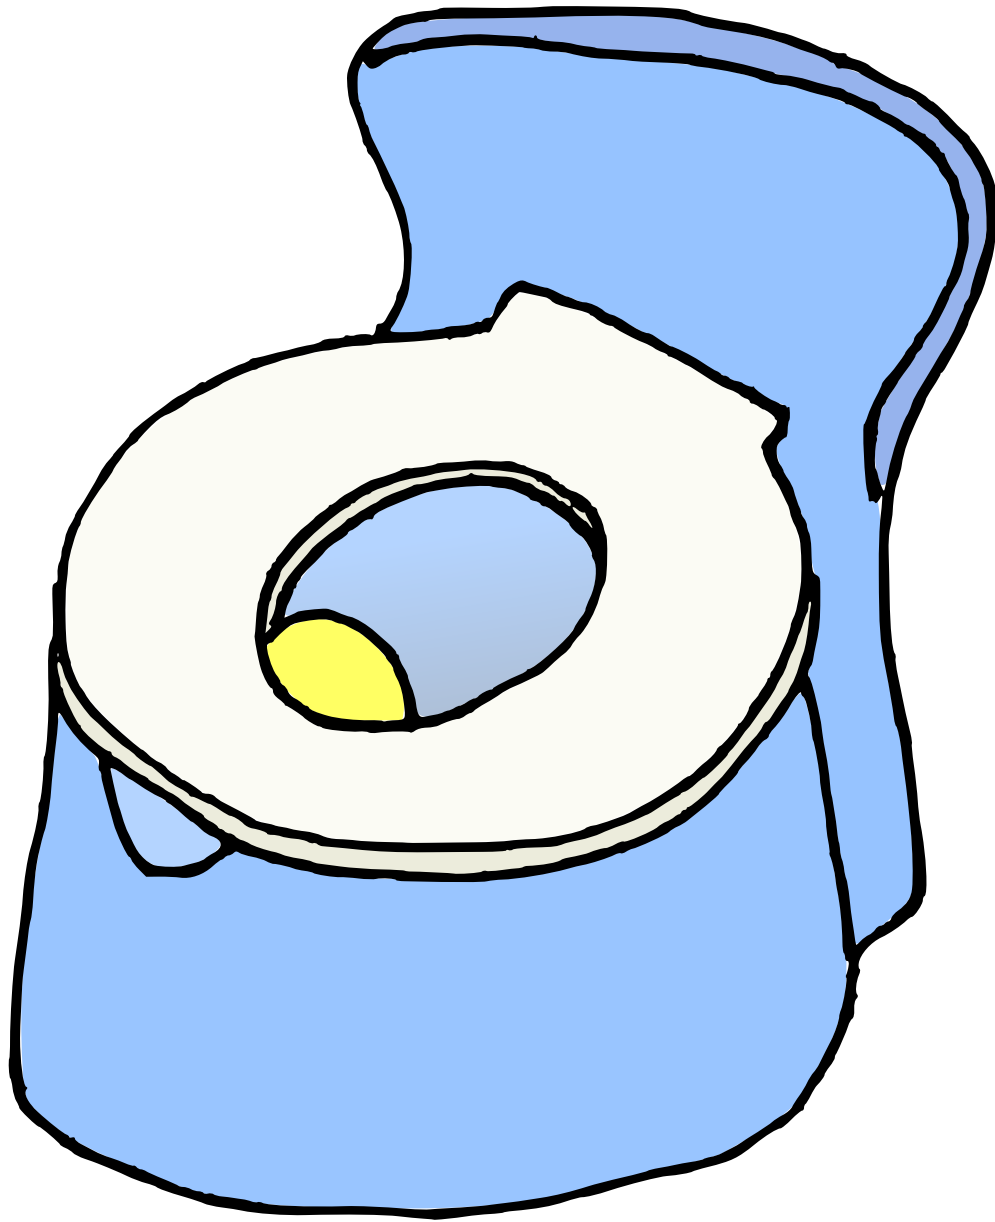

At night, it's important that I stay in
my bed.

But sometimes at night, I need to
pee!

If I need to pee at night, it's okay, I can get up and go to the potty.

Sometimes there will be a potty in my room. I can pee in that.

I don't need to empty the potty or
move it, my parents will do that in
the morning.

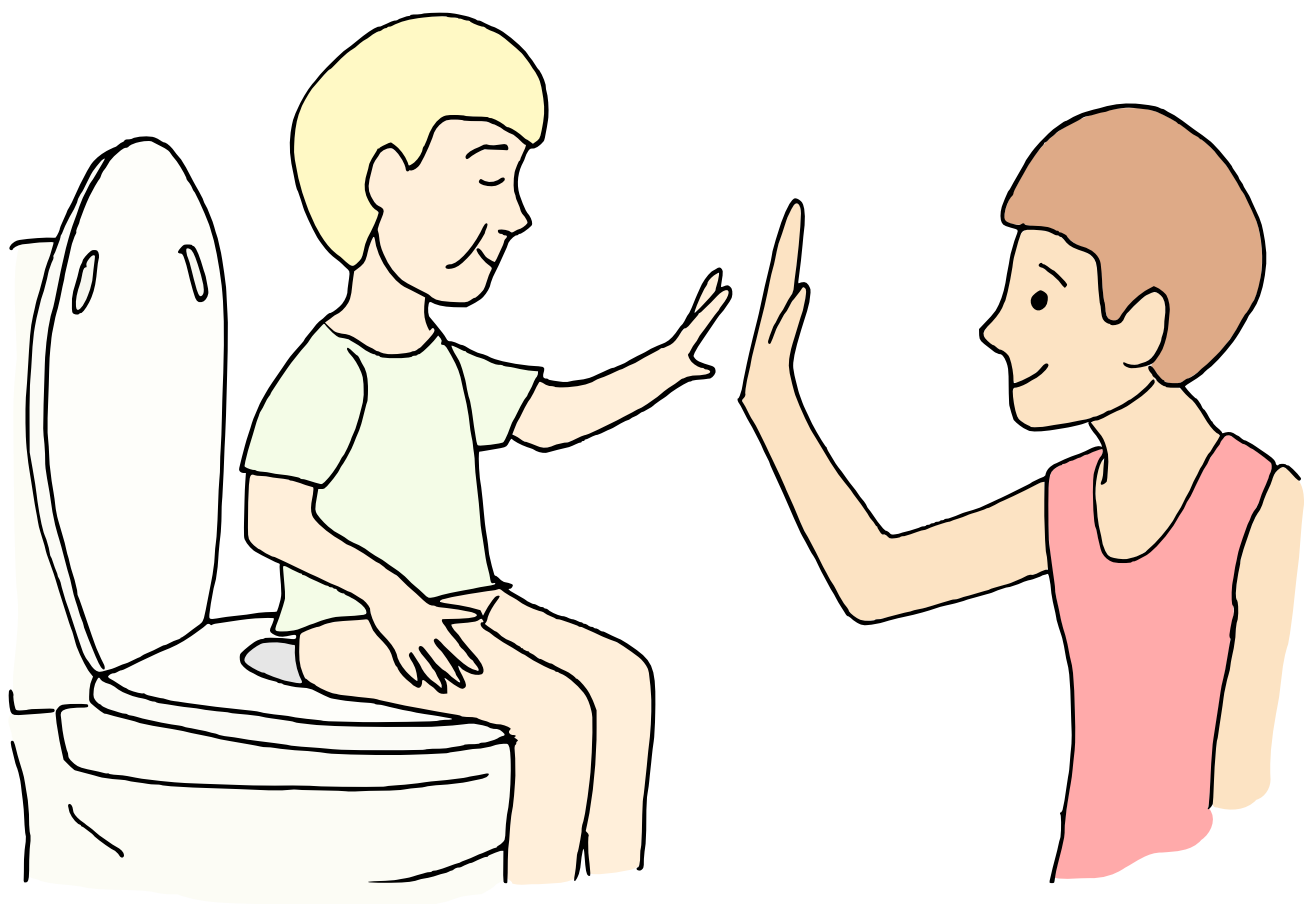

Other times I'll need to leave my room to use the toilet in the bathroom.

I can leave my room to go to the bathroom, but I need to go right back to bed when I'm done.

If I don't know what I should do if I need to go pee- I can ask my Mom, Dad, or whoever is putting me to bed. They'll tell me what to do.

I can stay dry and use the toilet at night!
