## Abstract

A reply to Lin and colleague's article on the effect of mass and social media on the psycho behavioral responses of medical students. As medical students, we questioned the quality of the information consumed by our Chinese counterparts to further understand the results. We suggest a further analysis of the data, and suggest possible future directions to strengthen the correlations found in the study.

## Preprint Settings

1) Would you like to publish your submitted manuscript as preprint?

✓ **Please make my preprint PDF available to anyone at any time (recommended).**

Please make my preprint PDF available only to logged-in users; I understand that my title and abstract will remain visible to all users.

Only make the preprint title and abstract visible.

No, I do not wish to publish my submitted manuscript as a preprint.

2) If accepted for publication in a JMIR journal, would you like the PDF to be visible to the public?

✓ **Yes, please make my accepted manuscript PDF available to anyone at any time (Recommended).**

Yes, but please make my accepted manuscript PDF available only to logged-in users; I understand that the title and abstract will remain visible to all users.

Yes, but only make the title and abstract visible (see Important note, above). I understand that if I later pay to participate in <a href="http://www.jmir.org/submit/submit.html">http://www.jmir.org/submit/submit.html
