Abstract

We would like to draw attention to the important role face to face antenatal care consultations play in enabling professionals to screen for Domestic Abuse. In light of the COVID-19 pandemic and the proposals put forward by Wu et al surrounding delivery of antenatal care online, we suggest that these interfaces should acknowledge this. Incorporating tools for screening and reporting of domestic abuse into any applications developed could help to improve safety of women in these vulnerable situations.

Preprint Settings

1) Would you like to publish your submitted manuscript as preprint?

✓ **Please make my preprint PDF available to anyone at any time (recommended).**

Please make my preprint PDF available only to logged-in users; I understand that my title and abstract will remain visible to all users.

Only make the preprint title and abstract visible.

No, I do not wish to publish my submitted manuscript as a preprint.

2) If accepted for publication in a JMIR journal, would you like the PDF to be visible to the public?

✓ **Yes, please make my accepted manuscript PDF available to anyone at any time (Recommended).**

Yes, but please make my accepted manuscript PDF available only to logged-in users; I understand that the title and abstract will remain visible to all users.

Yes, but only make the title and abstract visible (see Important note, above). I understand that if I later pay to participate in [http://www.jmir.org/](#)
