Abstract

(JMIR Preprints 12/08/2024:65322)

DOI: <https://doi.org/10.2196/preprints.65322>

Preprint Settings

1) Would you like to publish your submitted manuscript as preprint?

Please make my preprint PDF available to anyone at any time (recommended).

Please make my preprint PDF available only to logged-in users; I understand that my title and abstract will remain visible to all users.

Only make the preprint title and abstract visible.

✓ **No, I do not wish to publish my submitted manuscript as a preprint.**

2) If accepted for publication in a JMIR journal, would you like the PDF to be visible to the public?

Yes, please make my accepted manuscript PDF available to anyone at any time (Recommended).

Yes, but please make my accepted manuscript PDF available only to logged-in users; I understand that the title and abstract will remain visible to all users.

✓ **Yes, but only make the title and abstract visible (see Important note, above). I understand that if I later pay to participate in a full publication, my title and abstract will remain visible to all users.**

Original Manuscript

Correction: Effectiveness of the Pasifika Women's Diabetes Wellness Program (PWDWP): Protocol for a Pilot Intervention and Feasibility Randomized Controlled Trial

In "Effectiveness of the Pasifika Women's Diabetes Wellness Program (PWDWP): Protocol for a Pilot Intervention and Feasibility Randomized Controlled Trial" (JMIR Res Protoc 2024;13:e55435) the authors noted one addition.

A section of text has been added to the "Acknowledgements" that reads as follows:

The MMAS-8 Scale (U.S. Copyright Registration No. TX0008632533), content, name, and trademarks are protected by US copyright and trademark laws. Permission for use of the scale and its coding is required. A license agreement is available from MMAR, LLC., www.moriskyscale.com

Furthermore, Reference 28 (which cites the above scale) previously appeared as:

Moon SJ, Lee W, Hwang JS, Hong YP, Morisky DE. Accuracy of a screening tool for medication adherence: A systematic review and meta-analysis of the Morisky Medication Adherence Scale-8. PLoS One. Nov 2, 2017;12(11):e0187139. [FREE Full text] [CrossRef] [Medline]

This has been changed to the following:

Morisky DE, Green LW, Levine DM. Concurrent and predictive validity of a self-reported measure of medication adherence. Med Care. 1986;24(1):67-74. Epub 1986/01/01. pmid:3945130.

The correction will appear in the online version of the paper on the JMIR Publications website on August 16, 2024, together with the publication of this correction notice. Because this was made after submission to PubMed, PubMed Central, and other full-text repositories, the corrected article has also been resubmitted to those repositories.
