## **How to Personalize Your Page:**

- 1: After logging into your Rides account, click on "personal page" and you will be redirected to your very own Rides4ALZ page. Here you can edit your information and create a unique fundraising page.
- 2: Once you are on your page, you can click on the edit profile/personalized URL to update your information or create a cleaner URL (I'll include a section on this at the bottom of the page describing how to do this).
- 3: You can use the edit text box to create a unique greeting for those who come to visit your page.
- 4: Clicking the "edit images/video" button will allow you to change your profile picture/video.
- 5: This is perhaps the most important section, as it allows you to write a little bio about yourself and why you're joining us. Here you can tell your story and help people understand why they should help you reach your fundraising goal

## How to personalize your URL:

- 1: After logging into your Rides account, click on either the home, personal page, or participant center button. Each of these will redirect you to a page where you can access the link to change your URL.
- 2: Click on the edit profile/personalized URL link. This will take you to your profile page which contains your contact information and the area where you can simplify your URL.
- 3: You can either scroll to the bottom of the page or click the [Edit Personalized URL] to get to the section where you can make changes.
- 4: Once you reach this section, click the edit button.
- 5: Delete the string of numbers and letters that are there and insert whatever you want your new URL to be. I suggest your first and last name for your personal page.
- 6: Remember to click save!!
- 7: Your new URL should lead your friends right to your page!
