nervous for your assessment?

Everyone is. If you're feeling like you're not quite ready, we have something that may help. Every month we run our **Expert Prep** workshop. You will have to have completed all the workshops needed in the Expert Path way to book. This is run like a mock-assessment, and you will need a model (as well as camera, mic, and product if you are livestreaming). There's no pressure here—simply a chance to practice your **ProSkin 60** before your actual Assessment to get feedback from an instructor, so you can fine-tune your skills, and be confident going in that you will be successful.

additional information

We try to schedule our calendar 3 months in advance so you have plenty of options that work with your schedule.

We offer a hybrid of In-Person and Livestreaming classes to try and meet everyone's needs. If you are local to Toronto, Vancouver or Montreal, we would love to see you In-Person and have you get hands on! All of our classes in person are a give and receive, so please come prepared to do both! Please see a list of our hands-on practical classes.
