More than Just a Trend: Standing for Your Health

Increasing the amount of standing in your day – even just three hours per day – can offer you the same health benefits as running 10 marathons a year and can extend your life by two years. Standing more also counters all the health concerns too much sitting can bring, including reducing the risk of obesity, type 2 diabetes, cardiovascular disease, and cancer. An effective way to stop the health problems associated with sitting for long periods of time is to invest in a freestanding

sit/stand workstation and to take simple steps for a more active workday. Some suggestions include small changes like taking the stairs instead of the elevator, walking to speak with a co-worker instead of emailing or calling, and swapping out your chair for a height adjustable desk to stand during the day. Excessive sitting is associated with a number of chronic diseases and conditions, including:

120-140

Americans are burning 120-140 less calories a day than 50 years ago.

66%

increase in cancer.

112%

increase in diabetes.

54%

increase in heart attacks.

49%

increase of a higher risk of mortality from all causes.

Winston Workstation™

Sit-Stand Workstation

**Winston Workstation™ –
Energizing your body. Inspiring your mind.**

Instantly converts any desk into a sit stand workspace boosting health and productivity.

Recent studies have shown that sitting throughout the day can have the same negative health consequences as smoking. Winston seamlessly integrates into your workday for a boost in health and wellness.

FEATURES

- ▲ Take the work out of adjusting and replacing monitors. Simply attach, adjust, and remove all at the face of the beam. No need to slide monitors to remove.
- ▲ Designed to accommodate standing work without the distraction of unwanted movement.
- ▲ Large surface and convenient storage tray allow you to bring all necessities with you when you stand.
- ▲ Retrofit your existing desk into a healthy workspace with two easy mounting options: freestanding or desk clamp.
- ▲ Features a 17" range of vertical height adjustment and a locking cylinder to keep the workstation in place. No manual adjustment needed.
- ▲ Cable clips in the column and beam keep the cables organized and out of the way.
- ▲ Winston is assembled in the USA using components created through a green manufacturing process.
