**FRIDAY HARBOUR PHASING PROVISIONS  
ZONING BY-LAW AMENDMENT APPLICATION**

Dear Ms. Nordstrom,

The letter is written in connection with the Zoning By-law Amendment application submitted by Friday Harbour Village Inc. on March 25, 2021, in order to address the phasing provisions identified in ZBL 029-05, requiring confirmation that there are no impacts on existing wells as a result of construction activities.

Golder confirms that no negative impacts have been reported to existing wells as a result of the construction activities at the Friday Harbour Resort development site since the start of monitoring in 2010.

We trust this letter is sufficient for your current purposes.

Yours truly,

**Golder Associates Ltd.**

David Dillon, P.Geo.  
*Hydrogeologist*

Devin Hannan, P.Eng.  
*Associate - Environmental Engineer*
