RE: Canadian Environmental Law Association - Report on NEB Modernization

March 31, 2017

Delivered via email

To the Secretariat:

The Canadian Environmental Law Association (CELA) has attached its report to Natural Resources Canada, in response to NRCan's call for public input on the modernization of the National Energy Board.

CELA is appreciative of this opportunity to provide comment and the funding that was made available to facilitate our involvement.

Please find attached in this email, our report titled "*Modernizing the NEB: Using International Best Practices as a Benchmark for Regulator Reform.*"

Sincerely,

CANADIAN ENVIRONMENTAL LAW ASSOCIATION
Kerrie Blaise, Counsel
