³Tenable/Enterprise strategy group, 2018.

THE CHALLENGE

In a race against time, your organization is challenged with moving faster from vulnerability discovery to remediation.

57% of breach victims over the last two years identified an **unpatched known vulnerability** as the root cause⁴

PROBABILITY OF SUCCESSFUL ATTACKER EXPLOITATION OVER A 12 MONTH PERIOD⁵

⁴Ponemon Institute, "Today's State of Vulnerability Response: Patch Work Demands Attention".
⁵2018 eSentire observed data per 7 protected locations.

THE NEED

Resources limitations constrict your ability to rapidly identify, prioritize and remediate vulnerabilities putting your organization at risk.

PEOPLE

- **64%** of organizations anticipate need for increased headcount specifically for vulnerability management in the next 12 months⁶

PROCESS

- **65%** of organizations say lack of prioritization is a contributing factor to patching delay⁷

TECHNOLOGY

- **56%** of organizations are not satisfied with analysis and prioritization out of current tools⁸

THE SOLUTION

Find your vulnerabilities and stop the clock before your business is disrupted. **Introducing eSentire Managed Vulnerability Service**, in partnership with Tenable.

COMPREHENSIVE VULNERABILITY IDENTIFICATION

Identify asset vulnerabilities with precision across traditional and dynamic IT assets for continuous visibility across your expanding business environment.

ACTIVE RISK PRIORITIZATION AND LIFECYCLE TRACKING

Focus on vulnerabilities that present the greatest potential risk with expert guidance to facilitate accuracy and prioritization against dangerous exploits.

DEDICATED EXPERTISE DRIVING CONTINUOUS OPTIMIZATION

Alleviate resource constraints with dedicated experts that provide end-to-end management and platform refinement for greater operational efficiency.

CO-MANAGED FLEXIBILITY WITH CUSTOMIZED REPORTING

Realize the benefits of a vulnerability management platform without the complexity complete with full system access and flexibility to run customized scans and reporting.

Find your blind spots before cyber attackers do.
