

DATA SHEET:

eSentire Managed Risk Programs

Take Control of Cyber Risk

Identify potential blind spots

Alleviates resource constraints in your organization.

Build a strategy against associated risk

An enterprise-level information security program with strong policies and procedures.

Operationalize mitigation capabilities

Meet and exceed compliance requirements.

Measure and adapt to objectives and the threat landscape

Align business objectives with your unique risk and exposure.

Test, assess, and measure cyber resilience

Get ahead and stay ahead

eSentire Managed Risk advisory programs help you proactively identify gaps and opportunities to strengthen your security posture.

You gain visibility of potential blind spots as we assess the maturity of your cybersecurity program and its alignment to your business goals and compliance mandates. You will see your cyber risk immediately reduce as our expert team mitigates identified vulnerabilities and builds an optimal cybersecurity strategy based on your business’s individual profile and operational capabilities.

Enjoy peace of mind with continuous cybersecurity testing including employee security awareness training, plus have the confidence that our unique threat intelligence keeps you ahead of emerging cyber threats.

Wherever you are on your security journey – building from the ground up or working to test and harden defenses against the most advanced cyberattackers – eSentire Managed Risk programs will help you build a more responsive security operation today.

Why eSentire

eSentire's programs for managing risk integrate and apply practical intelligence to ensure your organization is protected against the latest threats and compliance mandates derived from:

- eSentire's Global Security Operations Center (SOC), which hunts and finds threats that evade preventative measures via our MDR services
- Lessons learned from eSentire's Penetration Testers that find new and elusive ways to break into client networks
- eSentire's Threat Response Unit (TRU) digs for the latest techniques, tactics and procedures used by today's threat actors
- Lessons collected from eSentire's Strategic Consulting Team that helps organizations harden their business and systems in response to the evolving threat landscape
