

NOTICE

Disruption in Service

There is currently a planned service disruption. The estimated time of the service disruption will be:

From: September 24, 2026	To: October 9, 2026
--------------------------	---------------------

Please be advised that a scheduled water service disruption will be required to complete work associated with the Elmwood Watermain Replacement Project.

Date: September 25, 2026

Anticipated Time: 8-4

Residents directly affected by the water service disruption will receive a separate notice delivered to their property confirming the scheduled shutdown details.

The intersection of Elmwood Drive and Pine Street East will be closed to traffic during the watermain work. The intersection will remain closed for an extended period following completion of the watermain work to allow for proper restoration of the roadway.

Access to residential driveways within the work area will be maintained; however, residents may experience short delays while construction and road restoration activities are underway.

Motorists and pedestrians are asked to follow all posted signage and directions from construction personnel.

The Town appreciates your patience and cooperation while this necessary work is completed.
