

## Neighbourhood Decision Making 2019 Voting Results

The ideas receiving funding in each geographic area are highlighted in the table below.

### Allocation Process

Neighbourhood Decision Making allocates \$50,000 for neighbourhood ideas per geographic area. There are 5 geographic areas. The most one project in a geographic area can be allocated is \$30,000. Projects are ranked from highest to lowest votes cast. In the case where the ideas with the most votes do not have enough funds to keep the intent/integrity of the idea, the money will be allocated to the idea next on the list in that geographic area. Ideas that are scale-able and can be completed with the intent of the idea can be allocated less than their original proposed budget. This excludes projects where additional money is sourced to make up the difference.

### NORTHWEST LONDON

Ideas	Votes
