

GENESIS®

GENESIS G70

GENESIS BEGINS WITH YOU

You are at the centre of everything we do and everything we believe in.

Every one of our automobiles has been finely crafted with your exceptionally high standards in mind.

And our uniquely personalized ownership experience, that comes to you at your convenience, has been created to exceed your expectations of premium service.

GENESIS AT HOME

Genesis is unlike anything you've experienced before. We are the first automotive brand to recognize that your time and convenience are the ultimate luxuries. Which is why we insist on coming to you, at your convenience. We call this Genesis at Home — a personalized journey that begins with you, where you are¹.

TEST DRIVE | WE COME TO YOU

The Genesis Experience begins right at your front door. Our Genesis Experience Manager will meet you at your home or office with the Genesis model of your choice for a product demonstration and test drive.

PURCHASE | WE COME TO YOU

Through genesis.ca, you can personally configure your model online, receive an appraisal for a trade-in, and complete a credit application. Then, purchase your new Genesis vehicle for delivery at a location of your choosing.

MAINTENANCE | WE COME TO YOU

Once you become a Genesis owner, our dedicated valet service will come and pick up your vehicle for its scheduled maintenance¹ needs, leaving you with a Genesis courtesy vehicle so you will never miss a step in your busy day.

YOUR GENESIS OWNERSHIP EXPERIENCE INCLUDES:

Complimentary Scheduled Maintenance^{*2}

Courtesy Vehicle Service^{*3}

Concierge Service^{*4}

Comprehensive Warranty^{*}

Complimentary Navigation Map Updates^{**5}

Genesis Connected Services™

24/7 Roadside Assistance^{**}

^{*}5 years/100,000 kilometres
^{**}5 years/unlimited kilometres

GENESIS G70

There's no telling what the all-new Genesis G70 might one day be to you. Maybe it will be your 365-horsepower escape pod, one that holds you as firmly as it holds the road. Perhaps it will become your classically proportioned personal calling card, with a swept-back roofline and eager, wide, low stance. It could be your luxury command centre, putting cutting-edge technology and leather-wrapped comfort at your fingertips. Or it may be all of the above, as you might expect from a compact luxury sport sedan designed to make the most of every drive.

Download the augmented reality (AR) smartphone application. Scan images on pages that feature this icon to get more detailed information and images of G70 in AR.

Sleek headlamps merge with wide hood lines and distinctive character lines to create a lasting impression. Elegant side lines conceive rich volumes that convey impressive power. A playfully ascending trunk end, combined with a sculpted bumper, complete the G70's athletic profile.

TURNS OUT, THE LAP OF LUXURY
 IS TURBOCHARGED.

For a vehicle that doesn't pull punches in the corners, the G70 sure knows how to treat you with kid gloves. When you nestle into the quilted-leather seat and grab the wheel you feel instantly at home. Elegant contrast-stitching and brushed aluminum accents highlight the cabin's fluid design lines.

The way the centre console wraps around you makes climate and audio adjustments effortless. And the high-mounted touchscreen ensures that with a flick of the eye and a touch of a finger you can optimize the cabin to your needs. Which comes in handy, since you have quite the drive to enjoy, after all.

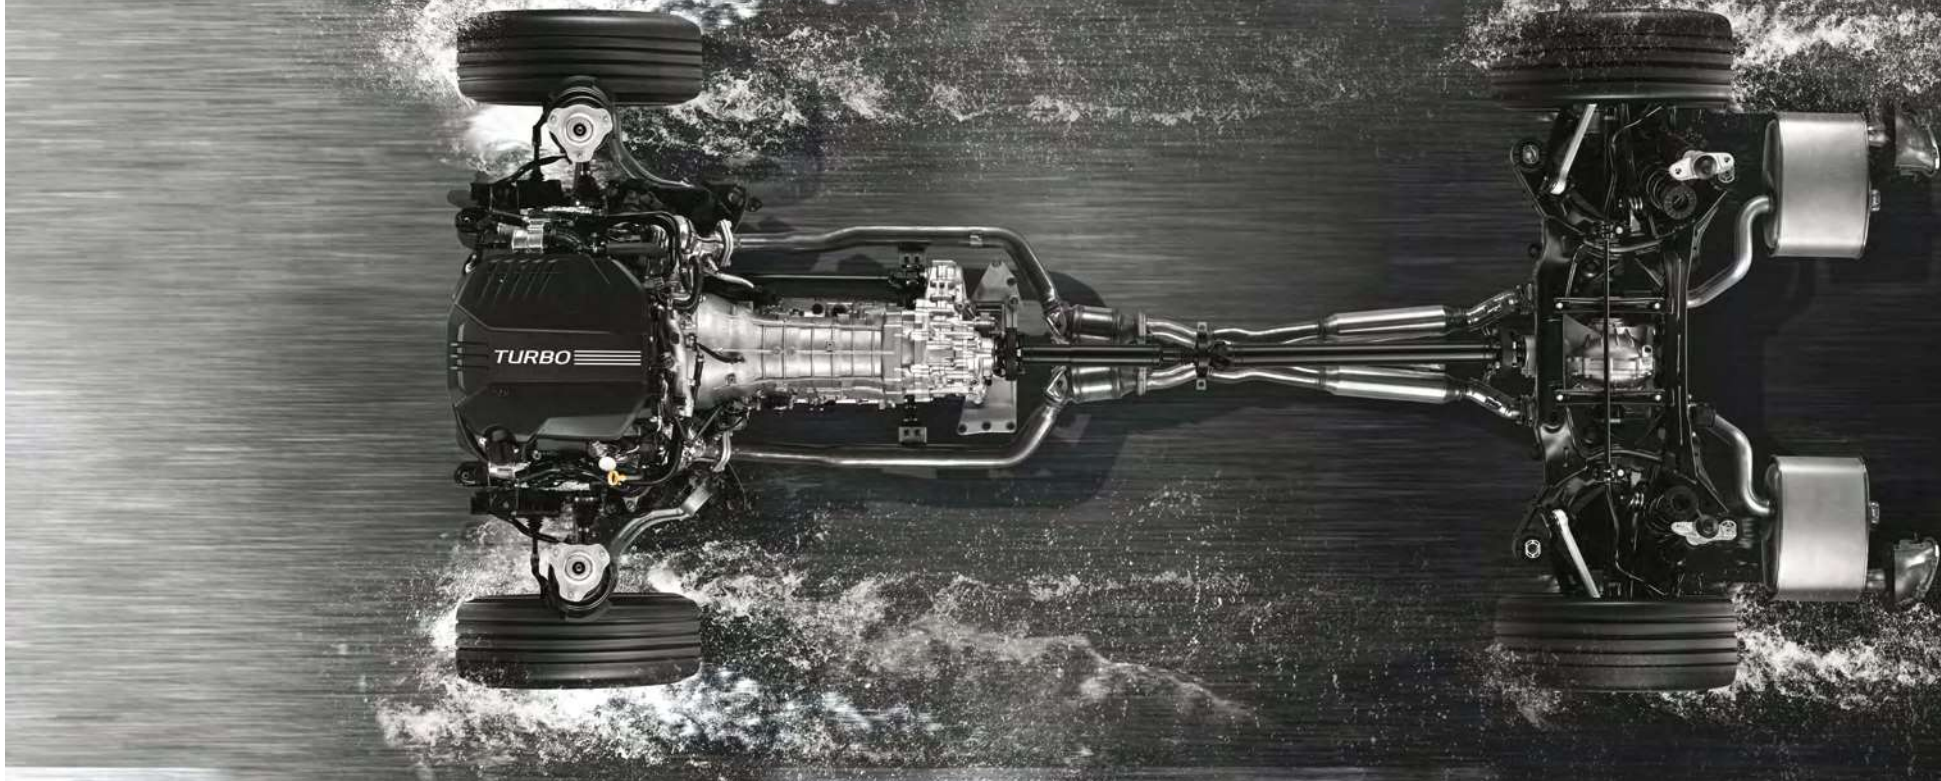

BUILDING FROM A STRONG FOUNDATION

Advanced High Strength Steel (AHSS) _ Thanks to a new platform featuring extensive application of Advanced High Strength Steel, the G70 boasts an ultra-rigid body structure. This in turn allows precise calibration of key suspension components.

CONFIDENCE IN ALL CONDITIONS

All-Wheel Drive _ To ensure it can tackle Canada's toughest driving conditions, the standard All-Wheel Drive (AWD) System was rigorously tested in the world's most demanding environments, including Germany's famed Nürburgring Nordschleife racing circuit. With superior control and stability in all weather conditions, G70 offers five available drive modes to tailor control based on your driving environment. A Limited Slip Differential installed on the rear axle of G70 Sport models ensures optimal power delivery, particularly accelerating out of corners or in slippery conditions.

POWERTRAIN

01.
2.0L Turbocharged I4 _ An exceptional balance of performance and efficiency. The 2.0L inline 4-cylinder features a fast-spooling twin-scroll turbocharger for minimal lag and strong response throughout the engine's operating range.

252 horsepower @ 6,200 rpm* 260 lb-ft @ 1,400- 4,000 rpm*
*Premium Fuel

02.
3.3L Twin-Turbocharged V6 _ For superior performance, G70 offers a highly advanced 3.3L twin-turbo V6 engine. With peak torque available at just 1,300 rpm, the G70 3.3T offers explosive mid-range response paired with smooth, linear power delivery.

365 horsepower @ 6,000 rpm* 376 lb-ft @ 1,300- 4,500 rpm*
*Premium Fuel

GENESIS SMART SENSE™

For Genesis, state-of-the-art safety isn't a choice. That's why all Genesis models⁶ feature **Genesis Smart Sense™**, a comprehensive suite of active driver assistance features. Not only do these features cover the full spectrum of safety — helping to keep the driver alert and aware of their surroundings while monitoring the road ahead for potentially unseen hazards — but all of them also come standard.

01. **Forward Collision Avoidance-Assist (FCA-A)** _ Forward Collision Avoidance-Assist⁷ uses a forward camera and radar sensors to detect rapidly closing distance between your vehicle and the vehicle ahead. If a potential forward collision is detected, warning notifications alert the driver. The system can provide full braking assistance to help avoid an imminent collision at speeds between 8 and 75 kilometres per hour for vehicles or 8 and 65 kilometres per hour for pedestrians.

02. **High Beam Assist** _ Using the front-mounted camera and light detection technology, High Beam Assist automatically switches between high beams and low beams when traffic is detected ahead.

03. **Blind Spot Collision Warning** _ The Blind Spot Collision Warning⁸ system heightens awareness by alerting the driver when there is a vehicle in their blind spot, or rapidly approaching, as they attempt to change lanes. In models equipped with the optional Head-Up Display, warnings are even projected onto the windshield for unparalleled situational awareness.

04. **Lane Keep Assist** _ Drift outside your lane without signaling and the Lane Keep Assist⁹ system first warns you with haptic vibrations through the steering wheel, as well as audible and visual cues. If the vehicle continues to approach the edge of its current lane, Lane Keep Assist can provide steering assistance to bring the vehicle back on course.

05. **Adaptive Cruise Control** _ Adaptive Cruise Control¹⁰ with stop-and-go capability adjusts your preset speed and distance from the vehicle ahead. It will even come to a full stop and then start again, without driver input, when the vehicle has been stopped for less than three seconds.

SUPERIOR DRIVING DYNAMICS

01.

Brembo® Brakes _ To ensure G70 stops as well as it can accelerate and corner, a high-performance Brembo® braking system is available. Powerful fixed calipers, 4-piston front and 2-piston rear, clamp down on large ventilated rotors for confidence-inspiring response, stop after stop.

02.

Drive Mode Select _ G70 offers a range of driver-selectable modes to tailor control and comfort based on your driving environment. Throttle response, steering weight, AWD torque distribution, and even the *Genesis Adaptive Control Suspension* (if equipped) can be adjusted to your preference. Also included is a “Custom” mode that allows the driver to mix and match their favourite settings.

03.

Genesis Adaptive Control Suspension _ All G70 models ride on a rigid platform featuring a fully independent multi-link suspension, with large four-piston fixed front brake calipers for confidence-inspiring stopping power. The available *Genesis Adaptive Control Suspension* on 3.3T Sport models can alter damping response based on road conditions or driver inputs, with Sport models featuring a firmer overall suspension calibration.

04.

Information At-A-Glance _ The Genesis G70's clear, easy-to-read instruments incorporate a 7.0" multi-function TFT LCD display. A wide range of information, from speed to trip information to system status, can be accessed by the driver at a glance. The same meticulous approach to ergonomics can be found throughout the interior of G70, where our designers have worked tirelessly to hone every interface between driver and machine.

05.

Concert-Quality Audio _ The luxurious cabin of the G70 can be complemented by an impressive available Lexicon® surround sound audio system adorned with metal laser-cut grilles. The system boasts Quantum Logic® surround sound and Clari-Fi™ music restoration software that rebuilds details lost in compressed audio files. The result is a dynamically rich and fully satisfying listening experience that recreates the ambience of a recorded performance space.

06.

Multiple Perspectives _ Get an expanded view of what's around you with the advanced Multi-View Camera System. See your car in multiple perspectives, including an aerial view of the vehicle, for a comprehensive look at the surrounding environment.

07.

Heads-Up _ An available Head-Up Display helps reduce distraction by displaying critical driving information on the windshield, directly below the driver's line of sight. Information includes speed, navigation directions and Adaptive Cruise Control settings, as well as indicators from Blind Spot Collision Warning, Lane Keep Assist, and Forward Collision Avoidance-Assist.

08.

Seamless Connectivity _ G70 comes standard with a high-resolution 8.0" central touch-screen display featuring Apple CarPlay™¹¹ and Android Auto™¹², allowing seamless integration of useful smartphone functions.

GENESIS CONNECTED SERVICES

With standard Genesis Connected Services™, you're linked to information and services like Enhanced Roadside Assistance, Collision Notification, vehicle diagnostics, maintenance reminders and more. Remote vehicle functions include Remote Start with Climate Control and engine timer, Remote Stop, Remote Vehicle lock or unlock along with remote control of the horn and lights.

GENESIS MOTORS CANADA

GENESIS.CA

TM/[®] The Genesis names, logos, product names, feature names, images and slogans are trademarks owned or licensed by Genesis Motors Canada, a division of Hyundai Auto Canada Corp.. ¹All vehicles sold by Genesis Motors Canada come equipped with 5 Years/100,000km, (whichever occurs first) Complimentary Scheduled Maintenance, Concierge Service and Courtesy Vehicle Service. The services are provided to customers within 50km (driving distance) to the closest Genesis distributor. Services are only offered in Canada. Some limitations apply. See an authorized Genesis distributor for complete details. ²The Complimentary Scheduled Maintenance covers all regular maintenance as described in the Service Passport, including for example, Fully Synthetic oil, oil filter, engine air filter, cabin air filter, tire rotation and regular inspection. The plan does not include repair or maintenance of parts that experience wear and tear, such as tires, brake pads, rotors, windshield wipers, etc., and other repairs that may be identified in the regular inspection performed as part of the plan. Plan covers regular maintenance based on normal driving conditions which are based on 12,000km / 10,000km or 1 Year depending on your model (refer to pages 19-22 of the Service Passport). Higher frequency intervals are not required or supported by Genesis Motors Canada. ³Genesis Courtesy vehicles will be provided to customers for all regular maintenance and warranty work. ⁴Pickup & Delivery service is available for Manufacturers warranty & scheduled maintenance. ⁵Map updates will be provided at No Charge for 5 years/100,000km, whichever comes first. Customers will have the option of either downloading the updated software directly or having the updates done by your distributor in conjunction with your scheduled maintenance. Includes up to 2 updates per year (maximum of 10 updates). ⁶Some features not available on 2.0T Sport trim. ⁷Forward Collision Avoidance Assist (FCA-A) is designed to detect vehicles that are directly in front of the G70. FCA-A will not detect all vehicles and objects. FCA-A may not work on winding or hilly roads, during certain weather conditions such as rain, snow, fog and any other times of limited visibility. FCA-A initiates full braking at speeds between 8 and 75 km/h. FCA-A is not a substitute for safe driving. ⁸Never rely completely on Blind Spot Collision Warning and be sure to use proper lane changing procedures. Blind Spot Collision Warning will not detect every object or vehicle and will not prevent accidents. Always look over your shoulder and use your mirrors to confirm clearance. See the Owner's Manual for further details and limitations. ⁹Lane Keep Assist system operates above approximately 69 km/h and only when the lane markings are clearly visible on the road and detected by the system. It will not prevent loss of control. See Owner's Manual for more information and limitations. ¹⁰Adaptive Cruise Control (ACC) with stop/start capability is not a collision-avoidance or warning device. ACC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible to slow or stop the vehicle to avoid a collision. Acceleration after the vehicle comes to a complete stop will only occur when the vehicle has been stopped for less than three seconds. See the Owner's Manual for further details and limitations. ¹¹Apple CarPlay™ works with iPhone 5s, iPhone 5c, iPhone 5 and later models running the latest version of iOS 7 and above. CarPlay™ may not be available on all devices and may not be available in all countries or regions. Visit www.apple.com for further details and any applicable limitations. Subject to app compatibility. Apple, Apple CarPlay and iPod are trademarks of Apple Inc.. ¹²Android Auto™ is compatible with Android phones running Android Lollipop or newer. Android Auto may not be available on all devices and is not available in all countries or regions. Additional apps may be required. Visit www.android.com for further details and any applicable limitations. Subject to app compatibility. Android and Android Auto are trademarks of Google Inc.. All other trademarks and trade names are those of their respective owners.
