WELCOME

Mayor's Message

Cold Lake is the hidden gem of northern Alberta. Not only is it a great place to visit, it's an even greater place to live, and this guide is the perfect place to read about everything our community has to offer.

New to Cold Lake in recent years is the Cold Lake Bike Park, which is maintained by dedicated volunteers in the community. It has wooded trails for bike enthusiasts to explore, as well as a skills section to test out new techniques. From our world-class beach to our state-of-the-art recreational facilities, Cold Lake has kept the feel of a small Alberta town, while developing the amenities you would expect in a much larger city. Summers in Cold Lake are beautiful, and often centred around our namesake, the lake itself. Visitors and locals alike love to spend time at our award-winning Kinsoo Beach. Other activities include taking to the water to angle for lake trout, walleye, pike, or perch, or go for a walk along the breakwater at Cold Lake Marina to enjoy spectacular views.

In 2024, our Lakeshore Drive will be seeing numerous improvements, as we build a retaining wall and new walking paths along the shoreline. This is an exciting project for us, and we look forward to everyone enjoying the view or taking time to launch their personal watercraft from one of the built-in water-access points.

Downtown Cold Lake never disappoints. There, you can shop, dine, and take in a movie. Be sure to also check out what is happening at the Cold Lake Agriplex, the

"home of the volunteers." The Cold Lake Agricultural Society has been bringing a wide array of entertainment to town for over half a century, whether it's bull riding, a stampede, or a trade show, the entertainment is always first class. The Cold Lake Museum is another must-see. Housed in a former Cold War radar station, visitors can learn about the region's Indigenous peoples, settlers, oil and gas industry, and our military history.

If it's a glimpse of the modern Air Force that you're after, all you have to do is look up. Cold Lake is the proud home of 4 Wing, Canada's busiest fighter base. Whether you are on the water, playing a round of golf on a local course, or hopping from shop to shop downtown, you never know when you will be treated to an impromptu air show. If you're looking for even more air acrobatics, the Cold Lake Air Show will be taking place this summer in July. Visitors with their eyes to the sky aren't necessarily looking for CF-18s. Wildlife in and around Cold Lake is abundant, and we are a well-known spot for bird watchers. The lake is often home to American White Pelicans in the summer months, and large flocks of Bohemian Waxwings in the winter.

Whether you are staying at a campground, one of our award-winning bed and breakfasts, or a hotel downtown, you are sure to receive a small-town welcome with all the big-town conveniences you need. I wish you all the best during your stay in our community and welcome you back for many happy returns.

CRAIG COPELAND

Mayor, Cold Lake

RYAN LEFEBVRE
President, Cold Lake Regional
Chamber of Commerce

As President of the Cold Lake Regional Chamber of Commerce, welcome to Cold Lake! Cold Lake is such a unique city in Alberta, it's a wonderful place to live or visit. It's a lake community with all of the services a larger city has; the best of both worlds. Around our shores are great restaurants, walking paths, an amazing beach and splash park and a campground! There is lots to offer in our area during all four seasons of the year. Winter activities include Kinosoo Ridge ski hill, snowmobiling, ice fishing and skating to name a few. Cold Lake is home to one of the largest inland marinas and Canada's largest fighter base, where seeing a CF-18 is almost a daily perk! With many unique specialty shops, restaurants, franchises, and a diverse mix of activities that cater to the whole family, our city has a lot to offer people looking for a getaway in Alberta!

SCOTT CYR, MLA
Bonnyville-Cold Lake-
St. Paul Constituency

As Member of the Legislative Assembly of Alberta for Bonnyville-Cold Lake-St. Paul Constituency, it is my pleasure to welcome you to our constituency. The beautiful City of Cold Lake with its abundance of natural resources, thriving industry and a heritage steeped in history, offers an array of recreational and cultural activities. Its diversity lends itself well to meeting everyone's interests. The large presence of 4 Wing Cold Lake within the city brings another vibrant dimension to our community. One thing for sure, you will receive a warm welcome wherever you go. Enjoy the great hospitality in the City of Cold Lake and surrounding area. As your MLA, I am here to help and represent you so if you require any assistance, please contact the constituency office by phone at **780-826-5658** or by e-mail at **bonnyville.coldlake.stpaul@assembly.ab.ca**

LAILA GOODRIDGE, MP
Member of Parliament
Fort McMurray, Cold Lake

As Member of Parliament, I'm delighted to welcome everyone to the beautiful City of Cold Lake. This thriving community and the entire Lakeland region provide visitors and residents alike with a host of opportunities to enjoy recreational as well as cultural activities including swimming, hiking, boating, concerts, and trade shows. This area is home to some stunning natural scenery which you can enjoy by visiting our many parks, hiking trails, beaches and peaceful river valleys. The awe-inspiring Northern Lights are one of the many sights you might see by looking up. You may also get a chance to see the CF-18 fighter jets from the 4-Wing air base flying in the skies above. There is literally no shortage of sights and things to see and do during your stay in or around Cold Lake! I want to take this opportunity to extend my best wishes to all our visitors for a wonderful stay and hope you will come back soon!

COL. DAVE TURENNE
Commander, 4 Wing
Cold Lake

As Commander of 4 Wing Cold Lake, home of the Fighter Pilot and Canada's busiest fighter aircraft Wing, I have the privilege to welcome you to the Cold Lake community. Our mission at 4 Wing is to provide world-class tactical fighter force training, deploy and support fighter aircraft at a moment's notice to fulfill Canada's Air Force roles at home and abroad. Contributing to the NORAD mission 24 hours a day, every day of the year, 4 Wing is always ready to deploy its forces wherever needed by the Government of Canada. Our members are dedicated professionals who actively contribute to the day-to-day mission at 4 Wing. Alongside their families, they represent a large portion of the community. We enjoy our close relationships with the City and region, our Indigenous partners, and local industries. Once again, welcome to the City of Cold Lake! We are honoured to be a part of this engaging and supportive community, and hope you enjoy your new place to call home.

LOCATION

We're located three hours northeast of Edmonton and 20 minutes west of the Saskatchewan border.

Several roads link to Cold Lake, making the city easily accessible via Provincial Highway 28 from Edmonton and 897 North from Lloydminster.

Hidden Gem

Located at the end of Highway 28, some say Cold Lake is northeast Alberta's hidden gem.

Alberta's Highway 28 will take you from Edmonton, through the better part of the Lakeland, ending at the Cold Lake Marina. Far from being the "end of the road," we're the start of your adventure. Whether you want to take up the challenge of catching some of the biggest lake trout Alberta has to offer, relax at the world-class Kinosoo Beach, ride trails, hike the country side, enjoy an authentic camping

experience, or watch the Royal Canadian Air Force in action, Cold Lake is a four-seasons playground with something to offer for everyone. In these pages, you will learn why Cold Lake is increasingly being discovered as a "gem" in Alberta's northeast.

State-of-the-art rec facilities with staff members experienced in event planning make the city the perfect getaway for tournaments. A new mountain bike park, nearby ski hill, two well-maintained golf courses and Cold Lake Provincial Park offer premier outdoor activities.

Shopping downtown or along the lakefront gives visitors the chance to explore local specialty shops and find many of the big brands they know and trust. While a budding arts scene means there's always a show or event to take in. Cold Lake truly has something to offer for everyone!

MARINA

Cold Lake Marina

A great place to start your exploration of Cold Lake, the Marina is a picturesque viewpoint of the lake and surrounding area.

The beauty of Cold Lake has drawn people to the area since before Alberta became a province. Covering over 373 square kilometres, Cold Lake is the seventh largest lake in Alberta. The lake's depths reach up to 100 metres in spots, a factor which contributes to the diversity of fish that can be found in the lake.

The Cold Lake Marina features over 250 berths for boats, a boat launch, as well as a breakwater and boardwalk for pedestrians to enjoy.

Several local restaurants and shops are within walking distance of the marina parking lot, giving visitors an easy place to start their adventures.

For sport anglers, there are over 23 species of fish, including lake trout, northern pike, walleye, yellow perch, burbot, and whitefish.

The lake itself spans the border between Alberta and Saskatchewan. It is home to the legendary Kinosoo, a gigantic fish.

Legend has it that a young Cree man who lived and hunted in the area set out to cross the lake to visit his betrothed. A huge fish emerged from the water and bit his canoe in two, and the poor man was never seen again.

Cold Lake is very large, and conditions can change quickly due to weather and wind. Having a reasonable knowledge of the lake's contours, and keeping an eye on the local forecast is important to anyone enjoying the lake at all times of the year. The lake typically freezes by the end of December, giving sport anglers a chance to enjoy ice fishing. It has been recorded that in 1979 the lake stayed frozen as late as May 29.

All boaters are required to have a Pleasure Craft Operator Card. Cold Lake, like any other lake, has specific sport regulations. Alberta fishing regulations are available free of charge at the various locations where fishing licences are sold.

Sailing

With over 370 square kilometres of shoal-free water, Cold Lake is a hot spot for sailing enthusiasts.

Possibly one of Alberta's best-kept secrets is the magnificent sailing conditions that Cold Lake has to offer. Home to the Cold Lake Sailing Association, regular events promote friendly competition among sailors of all levels of interest. Regular races run every Wednesday night from early June until mid-September, with a start time between 6:00 pm and 6:30 pm. Spectators can watch from the marina breakwater as sailboats head out into the lake to begin their races. Three open

regattas are held each year as well. The Ice Breaker Regatta is the first of the season held in early June. It challenges all Cold Lake sailors to rejuvenate their skills and shred all traces of winter dry dock. The Charlie Callaghan Pursuit Race Regatta is held in July, and has the sailboats starting at different times. This race is in dedication to the late Charlie Callaghan, who served as volunteer race officiator during the club's formative years.

The season highlight, held on the second weekend of August, is the Endurance Challenge. It encompasses a distance of 40-45 kilometres and is an excellent way to experience the open waters of Cold Lake. Visiting sailors are welcome to participate in both the races and several family events held throughout the summer. Members of the Cold Lake Sailing Association also offer up rides on race night to those new to the sport, and can work with organizations for group sessions.

KINOSOO BEACH

Taking its name from the legendary fish, Kinosoo Beach is the City of Cold Lake's summer hub.

A hot spot of activity in the summer months, Kinosoo Beach is an award-winning project that attracts locals and visitors alike. Named "Project of the Year" in 2018 by the Alberta Public Works Association in the \$1-5 million category, the planning and layout of the beach enhancements have made the area a true sight to behold. Take a walk along the beach or the newly constructed promenade, and soak in the sun and refreshing breeze off the lake. For the adventurous

type, there is a zipline that will take you over the water, giving you an opportunity to let go and drop into the lake. For the youngsters who may want something a little calmer, the Kinosoo Beach Splash Park is always a popular location. Pick up a game of beach volleyball on one of two beach volleyball courts, or shoot some hoops in the multi-purpose court. A newer addition to the beach area is a large set of playground equipment, giving kids of all ages somewhere to play.

Depending on the time of year, Kinosoo Beach plays host to a variety of public events and performances. The 4 Wing Military Band might be playing at the grandstand for a public performance, or the whole city might be out celebrating Canada Day on July 1, or Aqua Days on the August long weekend. In the summer months, even if the weather isn't agreeable

FLOATING DOCK

ZIPLINE

WALKING PATHS

you'll still find a line of storm-watchers lined up along the water, watching the clouds swirl and waiting for lightning to put on a show. When the winter arrives, it remains a spot to catch amazing sights – including the northern lights as they dance above the lake.

Cold Lake's shoreline is, for the most part, untouched and left as Crown land or provincial park. A number of secluded beaches around the lake can be visited only by boat.

If you didn't tow a boat with you, you can find a local charter to take you out for the day. Locals can also direct you to one of several other beaches

accessible by vehicle. These are out of the city limits, and are not maintained as a park, but offer a chance to get away from the crowds and enjoy the natural beauty of the lake.

Cold Lake Provincial Park's day-use area also has a sandy beach with a nearby playground and fire pits. You can walk the trails up past Hall's Lagoon and explore the park on paths that hug the shoreline and offer some fantastic views. Whether it's the convenience and amenities of Kinosoo Beach in the heart of Cold Lake, exploring miles of pristine shoreline, or trekking through the provincial park, Cold Lake will provide you with the means to make memories that last.

As we move into our new home,
we're even more excited
to help you find yours!

ECONOMY

Cold Lake is located in the oil sands region, the second largest oil sands deposit in Alberta.

Covering a trading area that serves over 60,000 people, Cold Lake has three main industries – the Canadian Forces Base 4 Wing Cold Lake, oil and gas development, and a strong tourism sector.

Cold Lake is a young, vibrant community with almost 60 per cent of the population under the age of 35. Cold Lake is the proud home of 4 Wing Cold Lake – one of Canada's busiest fighter bases – as well as a neighbor to Cold Lake First Nations and the Elizabeth Metis Settlement.

With a population of over 16,000, the City of Cold Lake is the largest urban centre in the area and home to an ever-growing service industry.

Many of the large chains are establishing a presence in the city, and local boutique shops still flourish in the vibrant downtown and the Lakeshore Business District. From a local distillery and brewery, to unique eateries and a thriving seasonal farmers market, Cold Lake has many of the amenities you would expect in a large urban centre while maintaining many local options. The diversity of the

economy can be attributed to the continued growth in the region, even when things are slowing down in other areas. Balanced with a variety of service-based businesses, tourism, aerospace and National Defense, Cold Lake maintains deep roots and a rich history in the oil and gas industry.

In fact, new oilfield technology was created in order to extract the resources from beneath the ground here.

Fishing and outdoor recreation have been bringing people to Cold Lake since the '20s: It was in 1929 when Mrs. Erickson, on vacation in Cold Lake, caught the province's record lake trout. She reeled in a 52-and-a-half-pound trout that holds the record to this day. The lake trout fishery remains world-class, with anglers flocking to the area both in the summer and winter to catch not only lake trout, but walleye, northern pike, yellow perch and whitefish.

With Crown land trails nearby, as well as the storied Iron Horse Trail, the paved Millennium Trail that runs through Cold Lake, and a new mountain bike park on Radar Hill, hikers, bikers, motocross enthusiasts and everyone in between has found a reason to visit.

This has led to a thriving hospitality industry that provides accommodations ranging from well-appointed hotel rooms to award-winning bed and breakfast operations, cabins, trailer and tent camping, and more.

HISTORY

About Us

Since 1929, Cold Lake has held the record for the largest Alberta Lake Trout weighing in at 52 lbs. 8 oz.

The City of Cold Lake has a rich history, from the First Nation and Metis cultures, to the settlers and their families who made their lives in northeast Alberta. In 1980, the Historical Society of Cold Lake and District published a hardcover book of the recollections and stories of these settlers, called *Treasured Scales of the Kinosoo*.

A tourist boom in Cold Lake occurred between 1920 and 1930. While there were many influential people who shaped Cold Lake during this time, a few stand out as promoters of fishing and tourism in the north. In 1920, Jim Hoolahan had moved to the Lakeland, and believed that Cold Lake had the potential for tourism. Next to the lakeshore, he built half a dozen six-story units for guests, and additional buildings for his family. With the buildings in place, he began promoting the area by producing Cold Lake Beach pennants and postcards. The images featured illustrated fish, such as a northern pike

stretched across the length of a Model T car, ready to be hauled home by a tourist, or a boat being swamped by monster-sized fish. It worked, and the tourists came on promises of being able to hook 50-plus-pound trout. Among these tourists was a lady known to us only as Mrs. Erickson. Her first name remains unknown, for at the time it was not recorded. In 1929, she reeled in a massive lake trout, weighing 52 pounds and 8 ounces, breaking the record for the largest lake trout in all of Alberta. Ninety years later, this record has yet to be broken.

Construction on Canadian Air Force Base Cold Lake began in 1952 and, together with the Cold Lake Air Weapons Range to the north, solidified the area's reputation as "Fighter Town Canada." The base is now home to two fighter squadrons, as well as training squadrons where Canada's future fighter pilots hone their skills. Exploration in the Cold Lake oil sands would eventually bring people to work in the oil fields from across Canada. It was also part of Canada's first steps into tapping the massive resource the oil sands hold: in 1980, one plant by Cold lake was one of only two under construction in Canada's oil sands.

Cold Lake's history can be discovered at the Cold Lake Museums, which are housed in a former Cold War radar station atop the aptly named "Radar Hill."

Canada's #1 employee benefits

Great benefits. Sweet price!

"Exiting a corporate career and starting a business meant going from financial stability to short-term instability. Jason provided solid advice to setup my family for the long term and got us the products we needed. We now go to bed every night with peace of mind knowing that we are ready for whatever might come our way."

Chambers Plan

Employee Benefits

4 Wing

Canada's busiest fighter base is located in Cold Lake. With two fighter squadrons and two training squadrons, CFB Cold Lake is 'Home of the fighter pilot.'

The nearby Cold Lake Air Weapons Range, a massive, world-class unrestricted airspace for pilot training, plays host to military training exercises and draws top gun crews from around the world.

It has helped to establish Cold Lake as a premier fighter base on an international scale, known by fighter pilots and aerospace and defense enthusiasts alike.

Every other year, 4 Wing Cold Lake hosts the Cold Lake Air Show, with the next performance scheduled for July 2024. The air show provides

attendees with a spectacular display of military aircraft capabilities, as well as exceptional civilian aviation performances and a wide variety of ground displays.

A viewing area allows aviation enthusiasts a chance to catch a CF-18 Hornet, a CT-155 Hawk, or any number of visiting aircraft on take-off or landing.

Visitors are also encouraged to stop by Heritage Park, located on Veteran's Way, to take in the displays of historical and current aircraft, and to stop by the Cold Lake Museums, where the history of 4 Wing Cold Lake and the Royal Canadian Air Force can be seen.

In addition to 4 Wing Cold Lake's fighter squadrons – the 401 and 409 Tactical Fighter Squadrons, 410 Tactical Fighter Operational Training Squadron and 419 Tactical Fighter Training Squadron – the base is also home to some of the RCAF's premier support squadrons.

Tasked with providing the mission-ready fighters, personnel, and equipment required to defend Canada's interests at home and abroad, the city and 4 Wing enjoy a close-knit relationship stretching back to the early '50s.

History and military buffs will find Cold Lake to be an exciting place, with a story to tell about Canadian Forces Base 4 Wing Cold Lake.

Construction of the Royal Canadian Air Force (RCAF) base in Cold Lake began in 1952. The area was selected due to several beneficial geographical features: adequate drainage, flat terrain, and nearby gravel deposits. Cold Lake was the first flying station to be built for the RCAF following the Second World War. The first day of flight training at the Station was Sept. 1, 1954 at the Ground Instruction School Synthetic Trainer Building. By November 1954, 40 major buildings were finished, including a huge cantilever hangar; four 160-foot structural steel

hangars, chapels, officer and non-commissioned member quarters and messes and other buildings required for the operation of a modern air base.

From 1964 until 1968, the RCAF as well as the Army and Navy, underwent a process known as unification. At this point, RCAF Station Cold Lake acquired the name Canadian Forces Base (CFB) Cold Lake.

4 Wing has grown to be the busiest fighter base in Canada, providing multi-purpose air combat capabilities, world-class tactical fighter training, and also deploying and supporting fighter aircraft both within Canada and abroad.

4 Wing will be a part of Canada's Future Fighter program, and is preparing to receive the next-generation fighter jet when a decision is finalized.

ARTS

Arts & Culture

Embracing local talent, Cold Lake is quickly becoming a regional hub for arts and culture.

From local theatre to artisan markets, Cold Lake has a lot to offer for the artistic soul. With an increasing number of locally produced events, there is something for everyone. Visual arts can be found across the city, from murals painted on business walls, to local artists showcasing their art in various businesses. If you are looking for more, you can catch one of the artisan or farmers markets where crafters, bakers, and creators display their work.

Events of all kinds happen in Cold Lake from testing your musical knowledge at Music Poker or listening to the 4 Wing Military Band give a musical performance at Kinosoo Beach. Cold Lake is home to a number of solo singers and bands, who are often found performing at street festivals and other events.

Kinosoo Performing Arts Association

For over 40 years, Kinosoo Performing Arts has been the mainstay for arts presentations in the Cold Lake Community.

Coordinated and run by volunteers, the society receives funding assistance from local sponsors and the Alberta Foundation for the Arts. New committee members are always welcome.

Five outstanding performances are offered each season, with a delicious, optional dinner buffet at the Lakeland Inn. Individual tickets available for purchase. Come be inspired by the arts in the community.

For more information please visit
www.kinosoopperformingarts.ca

Cold Lake Visual Arts Society

The Cold Lake Visual Arts Society was founded in 1998. The Society creates awareness and encourages participation for the visual arts through art displays, education, and interaction with the public.

Janvier Gallery

Alex Janvier, Denesuline, from Cold Lake First Nations, has been a professional artist for several decades. Janvier is a trendsetter, renowned for his murals, fine flowing lines, and use of bright, often symbolic colour combinations.

Some of his works can be seen at the Canadian Museum of Civilization, Cold Lake City Hall, Casino Dene on Cold Lake First Nations, and Rogers Place arena in Edmonton, Alberta.

In recognition of his success, Alex Janvier was inducted into the Cold Lake Hall of Fame in 2017. In 2010, he was invested into the Alberta Order of Excellence, and in 2008, awarded the Marion Nicoll Visual Arts Award, the Governor General's Award for Visual and Media Arts, and two honorary Doctorates of Law from Canadian Universities.

Alex Janvier is also a member of the Order of Canada, and has earned three prestigious Lifetime Achievement Awards.

For more information, visit www.alexjanvier.com

Casino Dene

Casino Dene first opened its doors in 2007, and has proudly continued development since that time.

It began as a vision of the Denesuline (Chipewyan) Tribe of Cold Lake First Nations, with a goal to provide an economic development plan to foster opportunity and advancement for the First Nations' people. Located on reserve lands, just seven kilometres south of the City of Cold Lake, it is easily accessible directly off Highway 28. Casino Dene is a showcase for some of the artwork of world-renowned artist Alex Janvier, with some of his artwork inspiring the warm and luxurious décor of the building. Offering

MUSEUMS

Cold Lake Museums

Located atop “Radar Hill”, on 69 Avenue, just east of the Tri-City Mall the Cold Lake Museum Group resides in the former 42 Radar Squadron facility, a relic from the Cold War (1947-1991).

The Cold Lake Museums are a group of multi-themed, individual museums in separate buildings connected by a covered walkway. They are the Cold Lake Air Force Museum, Indigenous Museum, Heritage Museum and an Oil and Gas Interpretive Museum. The museums are a not-for-profit organization operated by the Cold Lake Museum Society and supported by the City of Cold Lake. The museums open from the Friday of the May long weekend until the end of August each year.

Cold Lake Air Force Museum

The first museum of the group is the Cold Lake Air Force Museum. Coming up the hill and pulling into

the yard, visitors receive their first glimpse of aircraft in an outdoor display as well as a Radar Dome.

There were formerly three large domes on site, atop their own buildings. The current dome is a smaller version, but still impressive. It was built on the ground to enable visitors to have a look inside and get a good idea of their scale.

Inside the Air Force Museum, visitors are greeted and oriented to the entire facility, then begin their journey learning about 4 Wing's operating and support units, including the flying squadrons and the base hospital.

Inside visitors can:

- Take a look at the model of what the 42 Radar Site looked like while it was operational
- View the radar equipment and the immense height-finder antenna that aided in the protection of North America from the Soviet Union during the Cold War
- Look inside an F-5 cockpit (outdoors)
- Explore the stories and history of 4 Wing Cold Lake and CFB Cold Lake
- Purchase souvenirs, including unique Air Force “kit” in the Gift Shop

Indigenous Museum

Long before Europeans came to the Cold Lake area, Indigenous peoples inhabited the shores and woodlands of the Lakeland region. The Denesuline and Cree Nations made use of the resources of the lake and surrounding areas. Their histories and the history of the Metis people are told through artifacts, art and stories displayed at this museum. The museum was created by the Cold Lake Friendship Centre and the Cold Lake Museums.

Heritage Museum

Cold Lake is currently known for oil exploration and development, as well as being home to one of the busiest military bases in Canada. However, the modern history of Cold Lake goes back to the 18th century with the arrival of the first Europeans. Historical industries included fur trapping, logging, fishing and farming. The Heritage Museum contains the artifacts and storyline of the bygone era, as well as the civilian history of the last century.

Oil and Gas Interpretive Museum

Originally designed, researched and constructed by high school students, you can visit the Oil and Gas Interpretive Museum to discover the significant development of the oil sands industry in the Cold Lake area.

Learn about the history, geology, production, transportation and various uses for Cold Lake oil. The history of the oil patch stretches from Paleolithic times to the present!

With the assistance of interactive exhibits, visitors can understand why unique technology was developed specifically for the Cold Lake Oil Sands.

Expand your knowledge of the oil industry with a trip to the Cold Lake Museums' Oil and Gas Museum.

GOLF

Golfing

Cold Lake boasts two of the most picturesque golf courses in the Lakeland Region.

Rolling hills and forested terrain surround Cold Lake and area, which is home to two golf courses. Each of these 18-hole courses is carved out of mixed woods, and only minutes away from the downtown core.

Grand Centre Golf & Country Club

With its large, undulating greens, and unique 18 holes, the Grand Centre Golf and Country Club is both challenging and fun for golfers of all skill levels.

The facility features a fully licensed lounge, fully stocked pro shop, putting green, cart and club rentals, driving range, barbecue facilities, and tournament facilities. The course is also home to men's and ladies' leagues, and clinics for all ages, including juniors. Tournaments are held regularly throughout the season.

To see a virtual tour of all the holes, visit www.grandcentregolf.com

Cold Lake Golf & Winter Club

With a practice green, driving range, cart and club rentals, and friendly staff, all you need for a great round is located at the Cold Lake Golf & Winter Club.

The course itself offers something for every level of player. The front nine is a little more open, parkland style, while the back nine is a little tighter and more treed. From the beginner learning their way around the links to the seasoned player with a full bag of tricks, the course offers a challenge that all levels will appreciate.

After a round of golf in this beautiful setting, the Cold Lake Golf & Winter Club is sure to rank high among the courses you've played.

Six sheets of curling ice are available for rent for your business bonspiel or fun day. The local curling club has four active leagues and caters to all ages and levels of curlers. Drop-in opportunities are also available for those wishing to give the sport a try. The Cold Lake Golf & Winter Club also has several rooms and locations to rent if you are planning a large event. Add in some curling or skiing in the winter, or golf in the summer, and your guests will not forget the fun they had.

FAMILY SUPPORT

FCSS

If there's a single hub for all things learning, growing and family support in the greater Lakeland area, it's Cold Lake and District FCSS.

F CSS provides a host of locally-driven programs and services which focus on individuals, families, seniors, volunteerism, and community development.

Inquiries and referrals for programming and services offered by Cold Lake and District FCSS continue to grow at a steady rate. In fact, the number of people served by the organization has increased by more than 1,000 every year since 2015!

FCSS spearheads several community campaigns including National Family Week and National Child Day, manages the Toy Lending Library, and delivers over 2,500 meals to local seniors every year through the Meals on Wheels program. In addition, Cold Lake and District FCSS is home to Cold Lake Volunteer Services, which supports volunteer-driven organizations across the Lakeland and matches

them with willing volunteers. Cold Lake and District FCSS is filled with compassionate people who work each and every day to make a difference in our community.

Cold Lake Family Connections

Cold Lake Family Connections offers developmental supports for children, along with family-centred group and one-on-one programming. Kids can work on their teamwork and problem-solving skills in the massive two-storey jungle gym while parents receive valuable resources aimed at strengthening family bonds and supporting their child's social, physical, cognitive and emotional development.

Serving children from birth to age 18 along with their parents and caregivers, CLFC offers its programming and services free of charge and with or without a referral – though some clients are referred by health care professionals, police or other agencies.

Helping children achieve their full development potential and supporting their parents and caregivers to build strong, resilient families is the top priority of Cold Lake Family Connections.

For more information on programming, services and resources, call the FCSS office at

780-594-4495 or visit www.coldlake.com

The Public Library

Building a strong, vibrant community one resource at a time.

The Cold Lake Public Library builds community through a variety of programs and services. Cold Lake Public Library's two distinct branches offer a variety of resources for all ages and preferences. The South Branch is located behind Cold Lake City Hall, just a block from the downtown area. The North Branch is in the Cold Lake Seniors' Centre, located two blocks from the lake. An exceptional collection of genres for all ages is available at both branches, such as books, DVD movies and TV shows, audio books, and large-print publications. Free Wi-Fi and public

computers ensure that visiting patrons have all the tools available to meet their needs.

The Reading Garden is one-of-a-kind, and one of the most popular spaces for all ages to enjoy. It features a flower bed filled with plants and a stage where several performances are shared with the community, including shows by the 4 Wing Pipes and Drums, Cold Lake Cloggers, 4 Wing Brass and Reed, A Few Folk, and the Kehewin Native Dance Theatre.

Membership to the library is free to residents of Cold Lake and some surrounding areas. If you are visiting Cold Lake, drop by and ask our knowledgeable staff about our reciprocal borrowing opportunities. If your library card is part of the Alberta-wide library system, then it can be used in Cold Lake.

For more information, visit www.library.coldlake.ab.ca

RECREATION

Cold Lake Energy Centre

Located in the heart of Cold Lake, the Energy Centre and Imperial Park are the hub of sports and recreation. The Cold Lake Energy Centre is a masterpiece of recreational crossroads, where health and wellness meets sports groups and family events.

Inside the Energy Centre are two NHL-sized arenas, which are home to Cold Lake's hockey teams, figure skaters, and pleasure skaters.

Regular winter programming and free public skating events take place throughout the colder months. The Imperial Oil Place Arena has seating for 1,800 people, and can also be transformed to host trade shows, conventions, exhibitions and concerts for a maximum of 3,500 guests.

The Reid Field House is also open for the public to play a variety of sports and to plan their celebrations, special events, and seminars. The

Field House sees use from the local pickleball club, indoor soccer leagues, and fitness classes. It plays host to elaborate gala events, corporate functions, and smaller community events, such as comedy and music shows.

Circling around the top portion of the Field House is the Canadian National Resources Ltd Walking and Running Track. Open year-round, this track is free to use, and strollers can be signed out to take your little ones with you. You'll never have to miss a run due to the weather.

For those looking for a workout, the recently renovated and expanded Cenovus Wellness Centre has all the amenities you need. Located on the second floor of the Energy Centre, the Wellness Centre is amply equipped with machines, free weights, a Kinesis circuit and more. If fitness classes are what you are after, there is always something to keep you interested, from Zumba to spin classes, yoga, and boot camps, the Energy Centre's staff want to help everyone meet their fitness goals.

Imperial Park

Home to a variety of sport organizations, Imperial Park serves up the spaces needed to play. Accessible from the Millennium Trail, Imperial Park is a 120-hectare parcel of land that is home to six soccer fields, a rugby field, eight ball diamonds, pickleball courts, a skate park, a community garden, and the Cold Lake Energy Centre.

A recent addition to the park is an artificial turf field complete with grandstand. This facility has become a favourite for local sports teams, including the Cold Lake Fighter Jets men's football team, local soccer groups, rugby, and lacrosse.

The park's other irrigated fields ensure that sports teams at all levels can make the most of their season, while the skate park was designed with skateboards, BMX bikes, and scooters in mind,

SKATE PARK

offering riders of all skill levels the chance to test their abilities.

Of the eight ball diamonds, four are marked for slo-pitch, and four are marked for youth baseball, giving people of all ages a chance to get out and swing a bat. Local groups can be found on the mound all summer long. Cold Lake is home to several soccer leagues, a baseball league, and rugby teams.

Colonel J.J Parr Sports Centre

The Centre is located at 4 Wing and is open to the public for general use.

This multi-use complex covers an area of over three acres, and includes an Aquatic Centre, main and mini gymnasiums, squash and racquetball courts, “spin” room, large weight/ cardio room, and two NHL-sized ice surfaces. The Aquatic Centre features a six-lane, 25-metre competition pool, 150-square metre leisure pool, water slide, hot tub, and sauna. Both pools are of Italian design, made of stainless steel, and were the first of their kind to be installed in Canada.

The Aquatic Centre is staffed by certified and experienced lifeguards, who work hard to provide the community with a safe environment in which aquatic sports can be explored and enjoyed to their fullest. The main gymnasium features two NBA-sized basketball courts, eight badminton courts, three volleyball courts, a European handball

court, and a rock wall. The mini gym is specifically designed for aerobics, dance, and tactical training. The racquetball court also serves as a “walleyball” court for team play.

The weight/cardio room features a large selection of free weights and resistance equipment, as well as a sizeable cardio fleet featuring numerous treadmills, stationary bikes, elliptical trainers, steppers, and rowing machines. The two NHL-sized indoor rinks are easy to access for all kinds of skating activities.

If getting outside is your thing, the Col. J.J. Parr Sports Centre is complemented by a number of outdoor facilities, including an outdoor rink, tennis courts, soccer and ball fields, volleyball court, fitness station, and splash park.

The recreation department offers a variety of choices for your recreational and fitness activities. There is something for all ages, including swimming, skating, fitness, sports, and children’s programming year round.

The department is pleased to offer further programming out of the Mackenzie Arts and Community Centre, including dance, music, art, drama, yoga, gymnastics, and many more activities geared toward youth and adults in the Cold Lake community.

Bike Park & Trails

The Cold Lake Mountain Bike Park is quickly becoming one of the hottest recreation hubs around – and it’s not even finished yet. Designed by legendary mountain biker Jay Hoots, and constructed under his watch with the help of volunteers, the Cold Lake Mountain Bike park uses the topography of Cold Lake’s Radar Hill.

The park is pedal-power only; sorry, no motorized vehicles allowed here. Every level of rider will find a variety of trails to challenge their skills, and more are on the way.

Last year saw the trails portion of the park see completion. Meanwhile, the skills section next to the road began construction, leveraging the slope of the hillside in front of the Cold Lake Museum.

When the lake freezes over and the snow flies, the trails are groomed and riders can navigate the course on their fat bikes.

The mountain bike park is still a work in progress, but it has already garnered the attention of riders throughout northeast Alberta – and word is spreading fast.

Wildlife

Cold Lake and the surrounding region are home to a wide array of wildlife.

Located close to the transition of Alberta's aspen parkland and the boreal forest, with plenty of beautiful farm land in close proximity, Cold Lake and the surrounding region are home to a wide array of wildlife.

Whether you are hiking a local trail, playing a round of golf on one of our area's beautiful courses, or spending a weekend at Cold Lake Provincial Park, keep an eye out for engaging encounters with wildlife both large and small. Don't forget your camera when out on adventures, but remember to keep a respectful and safe distance.

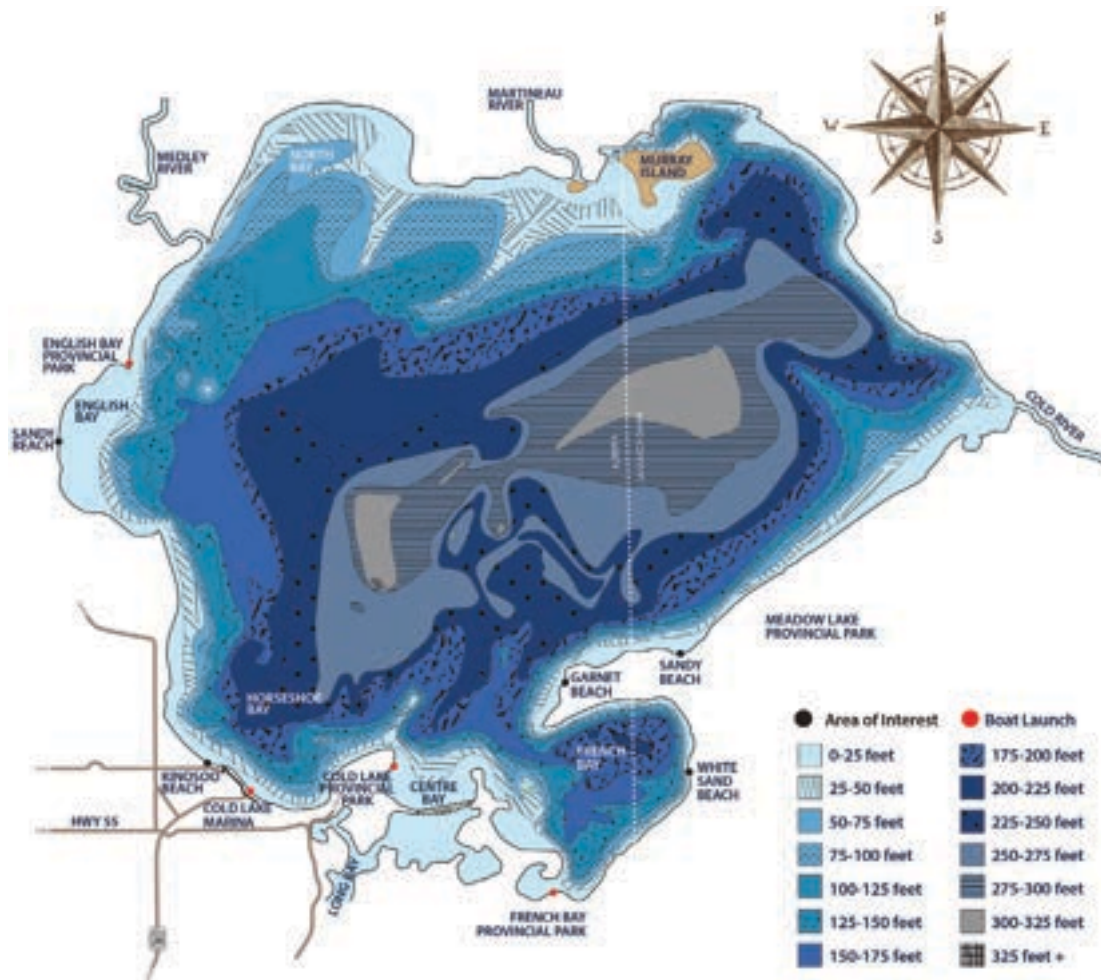

From majestic whitetail deer, to the iconic Canadian moose, big game animals abound. Habitat in the area also supports a population of mule deer, the occasional elk, and a strong number of black bears. The area's history is rich in the hunting and trapping tradition and, although they are hard

to catch a sighting of, marten, fisher and beaver populations thrive.

The area also supports a large population of Canadian lynx, foxes, and coyotes, and occasional sightings of cougars and wolves are not unheard of. Cold Lake lies on the edge of the flyways for migratory birds, filling the skies with Canadian Geese, ducks, and cranes. Bird watchers know the area's rich and diverse habitats are welcomed by several hard-to-find species.

The lake itself is home to a wide variety of aquatic birds, while the surrounding marshes, wetlands and mixed-wood forests provide habitats that support over 200 species of song and nesting birds. Winter will bring the snowy owl to the area from farther north, and birds of prey are common year-round. Upland game birds include ruffed grouse and pine grouse.

Cold Lake also, of course, provides for world-class fishing opportunities with anglers able to target lake trout, lake whitefish, pike, walleye and yellow perch. Nearby lakes and rivers are also stocked with rainbow trout and tiger trout. Local guides are available to help you navigate the large lake and find success in either the summer or winter seasons.

Fishing

Will you find the legendary Kinosoo in the depths of Cold Lake?

Cold Lake has the distinction of being one of the best fishing lakes in two provinces – and with a surface area of over 92,000 acres and a maximum depth of 100 metres, this is not a lake to miss. Several boat launches are located along the southern shores of the lake, and anglers are advised to be aware of potential weather changes once out on the water. Cold Lake boasts a variety of fish species, including walleye, northern pike, yellow perch, and burbot. However, what makes Cold Lake special, is its thriving lake trout population.

This map is made available to the public by the City of Cold Lake and is not a legally recorded map. It is not a survey and is not intended to be used as such. This map should not be used for navigational, tracking or any other purpose requiring exacting measurement of distance or direction, or precision in the depiction of geographic features. Updated March 2015.

Of the lakes in the area, Cold Lake is the only waterbody in which anglers can target lake trout, and the ease of access is unique among trophy lake trout fisheries.

The lake still holds the angling record for Lake Trout, with a Mrs. Erickson having caught a 52.5 pounder while on vacation in the community in 1929.

Legends say the monstrous fish known to the First Nations as the Kinosoo still lurks in the depths of Cold Lake. Will you be the one to reel it in?

TRAILS

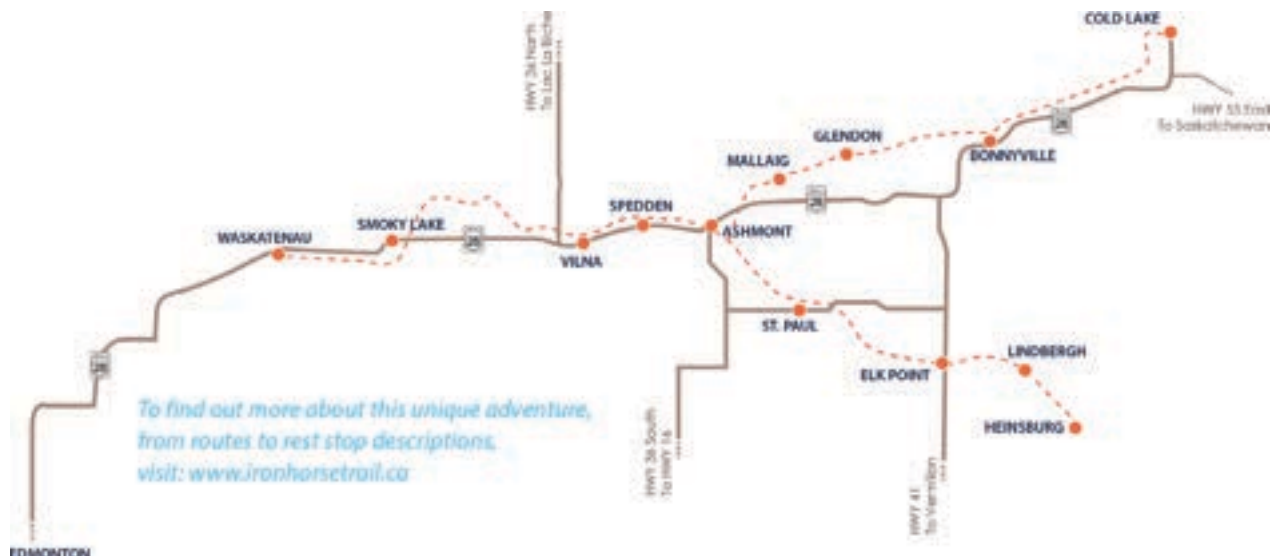

Iron Horse Trail

Welcome to the last stop on Alberta's historic Iron Horse Trail.

The Iron Horse Trail was built on a former railway easement, and is the longest continuous recreational trail in Alberta. In 1999, people from across the Lakeland came together to preserve this historic route, which originally served as a vital rail link for the growth

of settler populations and rural economic growth. Along the trail, you can find historic train stations that are still standing, and take a step back in time. This semi-wilderness, full-history trail is ready to be enjoyed any season of the year,

The trail branches out into several staging areas, with Cold Lake sitting at the end of the Northeast Branch. Various rest stops can be found throughout the trail system, giving explorers plenty of opportunity to stop and take in historic sights and breathtaking wilderness. Plan to start or end your journey in the City of Cold Lake, and you will definitely come across the trestle bridge just to the south of the city.

Millennium Trail

Cold Lake's Millennium Trail is an 11-kilometre trail running from one end of the city to the other. Completely paved and cleared year-round, the trail offers an excellent way to get some exercise and enjoy the great outdoors. It is commonly used by runners, cyclists, dog-walkers, and for community walks. Special needs vehicles like wheelchairs and scooters are the only motorized vehicles allowed on this accessible trail, while those on off-road vehicles are asked to stay to the side of the trail and watch their speed as they travel to the closest trail head outside of city limits, or to a service station for fuel.

The Millennium Trail connects with Heritage Trail in Cold Lake North, running alongside the lakeshore between the Cold Lake Marina and Kinosoo Beach. This adds another two kilometres onto the Millennium Trail, and offers a scenic walk in and of itself. With ample parking at the Cold Lake Marina, it is a great place to start out on your own urban adventure. It also provides access to the Cold Lake skate and bike park and the Cold Lake Mountain Bike Park, located on the slopes of the Radar Hill, the site of a former Cold War radar station.

Cold Lake Provincial Park

With 11.5 kilometres of trails to choose from, Cold Lake Provincial Park is a popular destination for nature lovers, bird watchers, and campers. These trails are accessible from the Cold Lake Provincial

Park, which has plenty of parking for day-use. The trail system covers a variety of terrain, giving both beginners and advanced adventurers something to choose from. In the summer, you will find people hiking and mountain biking throughout the park, before it is transformed in the winter to an excellent course for cross-country skiers and snowshoers.

When spring arrives in Cold Lake, over 200 species of birds can be seen in a variety of habitats, including clear-water lakes, marshy wetlands, and mixed-wood boreal forest.

During the four-week period from mid-May to mid-June, bird watching enthusiasts are rewarded with breeding colours and songs. A turkey vulture, a great blue heron, or a flock of American white pelicans flying in formation are frequent sightings, so photographers should keep their cameras close at hand.

Kinosoo Ridge Resort

With its natural and machine-made snow, the resort is a popular outdoor destination, and is ideal for beginners and families.

The resort, located in the Municipal District of Bonnyville, is known for being one of the best ski areas in northeast Alberta. With its two quad chairlifts, it offers groomed runs and night skiing, as well as terrain parks. Certified CSIA instructors provide ski and snowboard lessons and are available for all skill levels. After tearing downhill, visitors can warm up and relax with good food and hot drinks at The Ridge, a restaurant located on the second floor of the chalet. From Sunday Brunch to ski hill staples, there are plenty of options to please everyone's taste buds. The onsite rental shop has a variety of skis and snowboards in stock to fit even the smallest snow enthusiast. Have your own equipment? Take your skis or board to the in-house tech shop for a tune up. If skiing isn't your thing, you

can also check out the Tube Park, where there are four lanes of increasing steepness designed to give you a burst of speed and a whirlwind of fun while riding in your provided tube. If the conditions are right, link up with a friend or two and head down the hill together. Visit www.kinosoo.ca for more information on events and year-round activities available at Kinosoo Ridge, including the Aerial Adventure Park, an elevated experience offering thrills and one of the best views of Cold Lake.

Snow Fever

Taking over the Family Day Long weekend in February, Snow Fever is the Lakeland's annual winter festival. For three days, visitors can come out and experience a variety of chilly-but-fun events, at three different locations.

Saturday features outdoor fun at the Kinosoo Ridge Resort, with skiing, tubing, and live music. Sunday events take place at the Cold Lake Energy Centre, with ice sculptures, an ice slide, and skating. Monday gives folks a chance to warm up with some indoor play activities at 4 Wing Cold Lake, as well as snowshoeing and skiing at the Cold Lake Golf and Winter Club. This family-friendly event is a great way to experience all the wonders that winter in the Lakeland has to offer.

Ice Fishing

Once the lake has frozen over, you will still find eager anglers out on the ice, drilling holes and setting up temporary shelters.

Ice fishing is a very popular sport in Cold Lake and, if you ask nicely, locals might just share their favourite locations.

The City of Cold Lake does not monitor ice thickness, and it is always recommended to be prepared for changing conditions, as you venture out at your own risk.

Cross-Country Skiing

During the winter, the Cold Lake Golf and Winter Club's golf course is turned into a 10-kilometre groomed track of cross-country ski trails that gives both the glider and skater an opportunity to enjoy their winter passion in a beautiful setting.

You will also find a modest toboggan hill, which is sure to provide safe entertainment for the young family members. Excellent cross-country ski trails can also be found at Cold Lake Provincial Park.

A busy cross-country ski club is active in the community, and can provide information to newcomers on the best trails to take.

Snowmobiling

Right on the doorstep of the community, trails and amenities are available to support snowmobile enthusiasts. The City of Cold Lake is situated on the Trans-Canadian Snowmobile Trail (TCST) and the Iron Horse Trail. Both of these trails are connected, and offer continuously marked and groomed trails through Alberta, Saskatchewan, and Manitoba and into eastern Canada. From Saskatchewan, the well-marked TCST follows along the eastern shore of Cold Lake from the mouth of the Cold River. The trail heads southwest onto the Iron Horse Trail from Cold Lake, and across the Beaver River Ridge to Bonnyville.

The Cold Lake Snowmobile Club maintains a warm-up shelter equipped with a fire pit and wood stove on the northeast side of Crane Lake. It is accessible from a trail starting at Sandy Beach, just south of English Bay on Cold Lake. It provides an excellent destination for a family ride and at midpoint offers an incredible view overlooking Ethel Lake towards the city.

When conditions permit, the TCST and the Crane Lake Trail are groomed. The avid snowmobiler can ride to a variety of destinations, or can always blaze their own trail. Whether travelling east or west on the TCST or Iron Horse Trail, fuel and amenities are conveniently located along the way.
