

Public Engagement Session

The Government of Alberta is committed to engaging with health care workers, patients, families, caregivers, and all Albertans as work to refocus the health care system continues.

Your voice matters

Register now to join the conversation by attending an in-person public engagement session where you will learn more about health care system refocusing and have the opportunity to provide feedback on the progress made so far. Your feedback will help shape recommendations, identify areas of concern, and guide decisions for refocusing.

Scan the QR code or visit www.alberta.ca/leadtheway to register and find other opportunities to share your ideas on how we can work together to shape health care.

From the very start, we have been committed to building a health care system that works for every Albertan. By continuing the conversation, we are ensuring that their experiences, perspectives and expertise are reflected in our decision-making.

— **Adriana LaGrange**
Minister of Health
