

## EDUCATION

### **Bachelor of Architectural Studies (B.AS)**

Entrance Scholarship, Dean's List  
Honors Degree with High Distinction 2013

### **Master of Architecture (M. Arch)**

Entrance Scholarship, Research Scholarship, TA-position  
June 2015  
Azrieli School of Architecture and Urbanism, Carleton University, Ottawa, Canada

### **Master of Architecture**

Directed Studies Abroad, 2013 - 2014  
Aalto University, Helsinki, Finland

## PROFESSIONAL EXPERIENCE

### **Co-Founder, Designer and Design Strategist**

Nomadic Labs - designing and developing inclusive digital products for social impact organizations and civic initiatives.  
[www.nomadiclabs.ca](http://www.nomadiclabs.ca)  
2018-present

Deliver services including graphic design, web design, concept development, and brand development strategies.

### **Co-Founder, Product and Services Lead**

Milieu Technologies Ltd.  
2015-2017

Define product concept and requirements; ensure service delivery and user experience design align with company vision, direction and business goals.

### **Analyst / User Experience Researcher**

Treasury Board of Canada Secretariat, Chief Information Officer Branch, Ottawa

October 2016 - February 2017

Assist senior business analyst in UX research and system re-design of Access to Information and Privacy Systems Platform service to improve the usability and service quality provided to Canadians. Report to senior management to ensure the project stays on track and aligned with business goals and expectations.

January 2016 - September 2016

Conduct systems analysis and functional requirements gathering for migration of Canada.ca to the Managed Web Service within a multi-disciplinary team as part of the Web Renewal Initiative. Report to senior management to ensure the project stays on track and aligned with business goals and expectations.

### **Researcher**

Centre for Urban Research and Education  
2016 - present  
Carleton University, Ottawa

### **Researcher**

Carleton Immersive Media Studio, Ottawa  
2015

BIM and digital archives of Parliament building of Canada; create taxonomy and documentations to catalogue building components and construction methods for research and historical records

## PROJECT EXPERIENCE

### **Milieu Cities Platform - Guelph Civic Accelerator**

Scoped the design and delivery of a web-based service platform for informing and engaging residents regarding municipal statutory planning process. Project required extensive user experience research on both the work-flow of the municipal staff members, and residents. I planned and lead workshops to understand the needs and requirements that informed the design and feature sets of the Milieu Cities Platform. A public API was developed for cities to post statutory planning information as Open Data to the Milieu Cities Platform. The delivery of the platform was carried out in an Agile process.

### **Entrée Nord Nouméa - Ville de Nouméa, NC**

An online civic engagement campaign is designed and delivered to the city of Nouméa, New Caledonia to envision the future of the city's Northern Entrance, a highly contested and politicized site, with residents. Public feedback collected throughout the 90-day commenting period will be analyzed and visualized. A customized data pipeline is used to transform high volumes of unstructured text into informative data visualizations for the architectural consultant, and the city's urbanism department to make better informed decisions on the revitalization plan.

### **Percy Station Ottawa (2016)**

A design-build project to improve the urban experience of a fire-destroyed and derelict site in Centretown Ottawa. The pop-up parklet provides a conversational space to the residents in the area for the summer of 2016. The structure is accessible to all with sufficient sun-shading, seating, and simple bike repair tools. The project is well-received on social media and among local community groups.

## EVENTS, PUBLIC SPEAKING, AND PUBLICATIONS

### **Guest speaker, publication contributor**

Hacking the Dichotomy: Smart City vs. Social City - Architecture Concordia 2, Topological Media Lab, Concordia University, Montreal, 2015

### **Organizer**

Exceptional/Exceptionable Space, Invited speaker: Keller Easterling - Joint research project and conference series supported by: MDS TD Grant initiative at Carleton University, Ottawa, 2015

### **Round Table : *Animating Our Waterfronts***

New Cities Summit 2016, Montreal, QC, 2016

### **Publication Contributor**

AC2, Architecture Concordia, Concordia University, Montreal, QC, 2016

### **Guest Speaker**

Civic Tech TO / YOW CivicTech, 2016

### **Speaker: *Facing Information Overload***

World Design Summit, Montreal, QC, 2017

### **Speaker: *The End-Product as an Inclusive Design Process***

Ontario Digital Inclusion Summit, ON 2018

### **Chapter Lead, *Speculative Futures Ottawa***

2018 - onwards

### **Chapter Co-host, *Ladies Wine & Design Ottawa***

2018 - onwards
