A SLASH PODCAST GUIDE

SLASH PODCAST TOP TOOLS

From accounting software in the cloud to easy screen capture software you can use to create online courses to never having to remember an online password again, below are the 7 tools we could not live without.

Freshbooks

FreshBooks is accounting software that makes running your small business easy, fast and secure. We love Freshbooks because it makes invoices (and expense tracking) painless. You will not be disappointed. [Click here](#) for a 14-day free trial.

StudioPress (Genesis) WordPress themes

WordPress is a free open-source platform that powers almost 20% of Internet websites. **StudioPress** themes add an extra layer of functionality and security (not to mention gorgeous design!) [Click here](#) to learn more!

Dropbox

Save files on your computer, then access them on your phone from the road. Everything you keep in **Dropbox** is synced automatically to all of your devices. [Click here](#) for 30 day free trial.

ConvertKit

ConvertKit is a tool that gives you the power to earn more from your email list while keeping the human element in something as personal as email. [Click here](#) to learn more (30-day no-questions-asked refund policy).

Scrivener

Scrivener is a powerful content-generation tool for writers that allows you to concentrate on composing and structuring long and difficult documents. Finally get to the end of that awkward first draft. [Click here](#) for 30-day free trial.

Screenflow

With **ScreenFlow** screen recording, you can record any part of your monitor while also capturing a video camera, iOS device, microphone, and computer audio. Nanci's top recommendation for creating online courses! [Click here](#) to try before you buy!

LastPass

Never lose another minute trying to find lost passwords. Your vault is locked with a password that's never shared with LastPass, which also use bank-level encryption to scramble your data for secure transfer and storage. [Click here](#) to learn more!
