

Electronic Configuration of T4 and RL-1 Slips

Table of content

Section 1: Configuring T4 Slips in Dynacom Accounting.....	2
Section 2: Registration with the Provincial Government.....	5
Section 3: Configuring RL-1 Slips in Dynacom Accounting.....	6

Warning

This guide assumes that you have previously produced T4 and RL-1 slips using the Dynacom software; therefore, the following instructions will only assist you in transitioning from paper submissions to governments to electronic submissions. Moreover, Dynacom software does not send anything directly to the governments, it only generates files that you must subsequently submit on the government websites.

Section 1: Configuring T4 Slips in Dynacom Accounting

From the **T4 Printing** module, check the box **Transmit Electronically**:

T4 - Printing

Customize Configu... Electron... Preview Help

⚠ You must set up the T4 form before being able to print it or produce it electronically.

Employees

Year: 2023 Sort by: City

Facsimile Print the Summary

Formulaire Dynacom (recto) Front-back print test

Government pre-printed form

Business number (BN): 11111118RP1234

Electronic transmission

Transmit electronically [Set Up]

Transmission number: []

[Edit Template...] [Close]

Next, click on the **Set Up** button located to the right of the box you just checked. You will need to configure the three tabs with your company's information. You cannot click on the 'OK' button until the essential information is filled in. For the **Transmitter account number**, it is your Federal payroll number (e.g., 879598843RP0001). If you are preparing on behalf of another entity, please use your Federal number, not your client's.

T4 Form Set Up

Transmitter | Contacts | T4 Summary

T4 Summary

Employer surname: Dynamcom Technologies | To the attention of:

Address: 1270, Dagenais Blvd., West

City: Laval | Province / State: QC | Country: CAN | Zip Code: H3A 1Y2

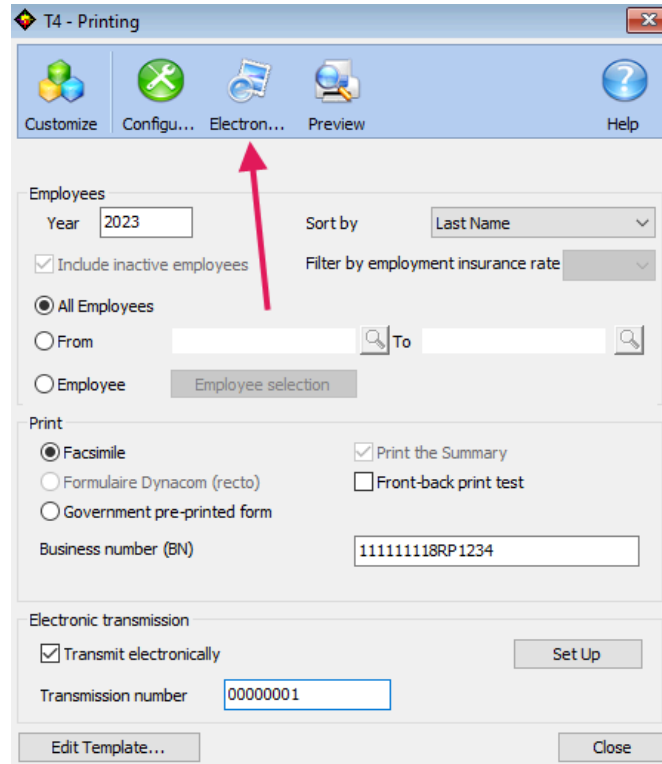

Transmission type: O - Original report

Proprietor #1 SIN: 000 000 000 | Proprietor #2 SIN: 000 000 000

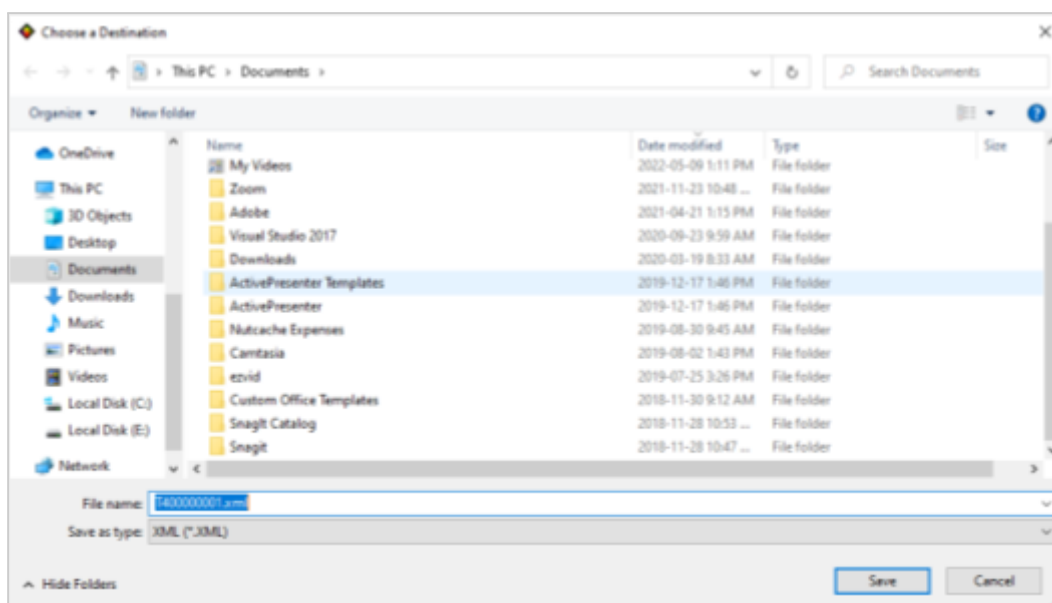

Federal Youth Hires Program: B - Not required

OK | Cancel

After configuring the three tabs, you can click on the 'OK' button and return to the main T4 printing window. You will need to enter a **Transmission Number**, which will be 00000001 if it's your first submission

You will notice that the print button is now labeled **Electronic Submission**. After previewing and ensuring everything is in order on your T4 slips and summary, you can click on the **Electronic Submission** button. Your Dynacom software will prompt you to save the XML file. If your Dynacom software is installed locally on your computer, save the file on your desktop, in your documents, or in a location of your choice. If you are using the SaaS version of Dynacom, save the file on the K: drive (common), from where you can later copy it to your computer.

Subsequently, you can print double-sided copies for the employees, as usual. Even though your Dynacom software shows the T4 summary at the end, it is included in the XML file that you will send to the federal government; therefore, it is not necessary to submit it manually.

To submit your XML file, please use the following website:

<https://apps.cra-arc.gc.ca/ebci/njfs/ext/disclaimer>

Simply press the **I Agree** button at the bottom of the page and follow the on-screen instructions

Section 2: Registration with the Provincial Government

To begin, you first need to subscribe to the online services of the provincial government via the following address:

<https://www.info.clicsequer.gouv.qc.ca/entreprises/inscription-clicsequer-entreprises/>

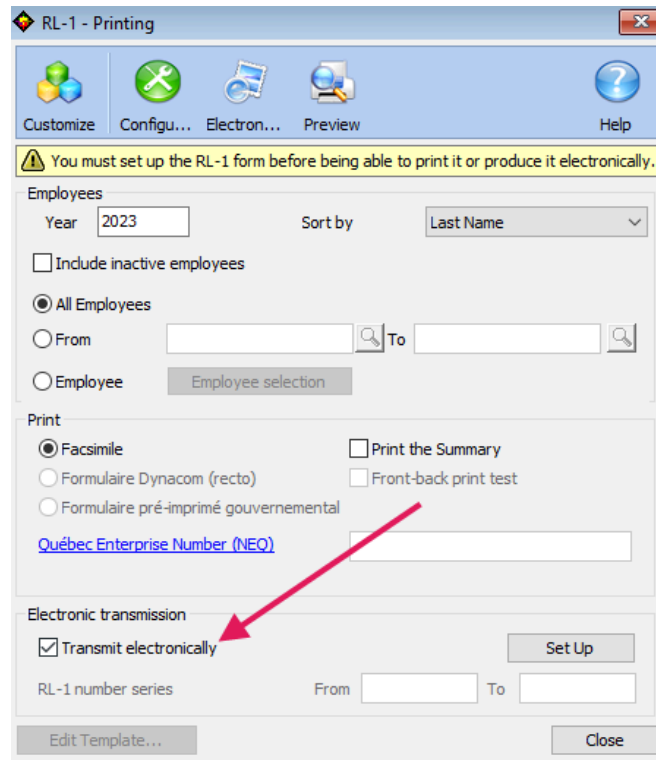

You will also need a **Transmitter Number**. Unlike the federal government, you will need a unique **Transmitter Number**, regardless of whether you are filing for yourself or for other entities. To obtain the **Transmitter Number**, please visit the following site: <https://www.revenuquebec.ca/en/online-services/forms-and-publications/current-details/ed-430-v/>

Registering to obtain the **Transmitter Number** will also give you access to the Serial Numbers you will need. See the steps to follow on the following website to obtain those numbers:

<https://www.revenuquebec.ca/en/businesses/rl-slips-and-summaries/sending-rl-slips-and-summaries/sending-rl-slips-and-summaries-to-revenu-quebec/online/>

Section 3: Configuring RL-1 Slips in Dynacom Accounting

From the Relevés 1 Printing module, check the box **Transmit Electronically**.

Next, click on the **Set Up** button located to the right of the box you just checked. You will need to configure the three tabs with your company's information. You cannot click on the 'OK' button until all the essential information is filled in. For the **Transmitter Number**, use the Transmitter Number mentioned in Section 3.

The image displays three sequential screenshots of the 'RL-1 Form Set Up' dialog box, showing the configuration of different tabs.

First Screenshot: Transmitter Information

- Transmitter Information**
 - Name of transmitter: Mrs. ABC
 - Address: 1270, Dagenais Blvd., West
 - City: Laval
 - Province / State: QC
 - Zip Code: H7L 5E3
 - Taxation year: 2023
 - Transmitter number: NP 123456
 - Transmission type: Original file
 - Transmission number: 000
 - Type of transmitter: If you are filing for yourself

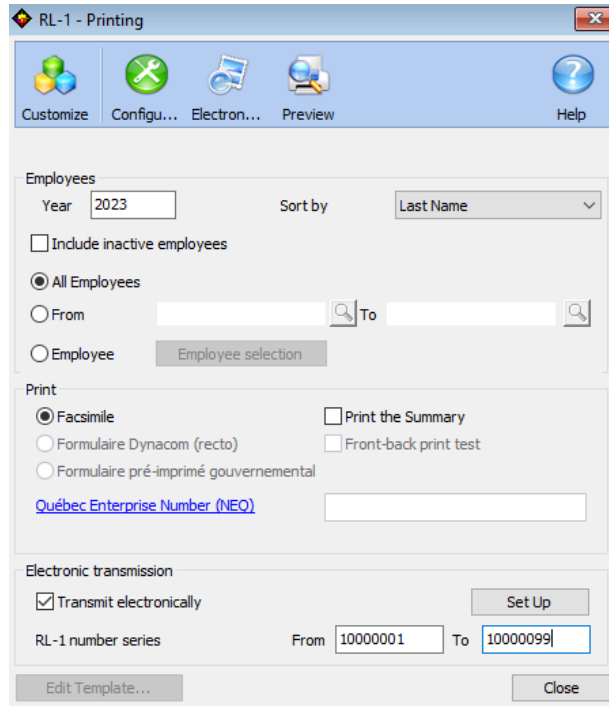

Second Screenshot: Technical

- Technical**
 - Surname and first name: Mrs. BBC
 - Area: 819
 - Phone: 236-6589
 - Ext.:
 - Language of communication: English
 - Email: bbc@dynacom.com
- Accounting**
 - Surname and first name: Mr. ZZY
 - Area: 985
 - Phone: 236-9874
 - Ext.:
 - Language of communication: English
 - Email: zzy@dynacom.com

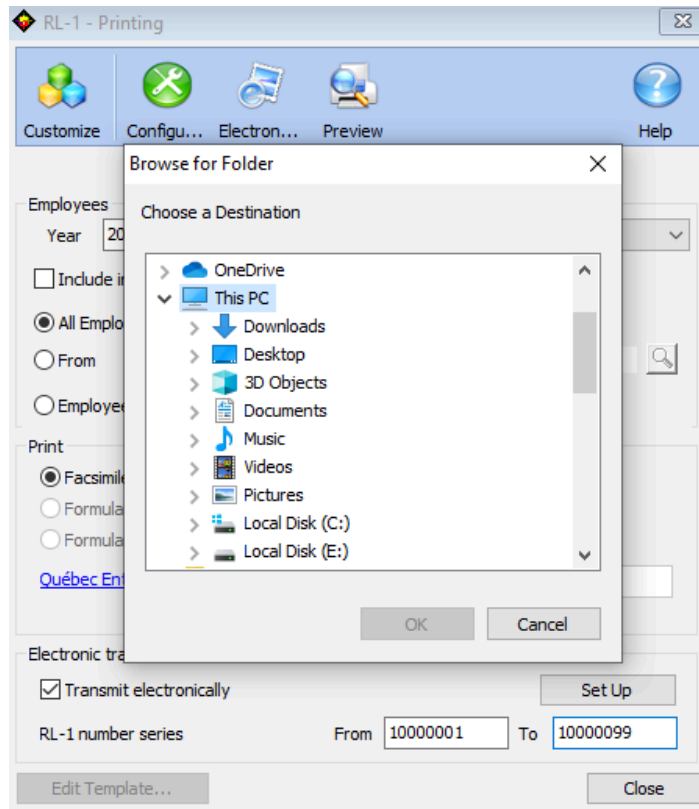

Third Screenshot: RL-1 Totals

- RL-1 Totals**
 - Employer surname: Dynacom Technologies
 - File number of employer: 1234567890 RS 0001
 - Address: 1270, Dagenais Blvd., West
 - City: Laval
 - Province / State: QC
 - Zip Code: H3A 1Y2
- Dynacom Accounting
 - Version: 11.08.0494
 - Authorization No.: RQ-23-01-056

After configuring the three tabs, you can click on the 'OK' button and return to the main RL-1 printing window. You will now need to add the serial numbers as mentioned in Section 3.

You will notice that the print button is now labeled **Electronic Submission**. After previewing and ensuring everything is in order on your RL-1 slips and summary, you can click on the **Electronic Submission** button. Your Dynacom software will prompt you to save the XML file. If your Dynacom software is installed locally on your computer, save the file on your desktop, in your documents, or in a location of your choice. If you are using the SaaS version of Dynacom, save the file on the K: drive (common), from where you can later copy it to your computer.

Subsequently, you can print double-sided copies for the employees, as usual. Unlike the XML file for the T4 slips, the RL-1 summary is not included in the provincial XML. You will need to send it by mail or fill in the summary information on the provincial government's website.

To submit your XML file, please use the following website:

https://www.services.mrq.gouv.qc.ca/AccessEntrpr/s3/s303/S303A01_01A_PIU_TransmRelev_PC/PageDeGarde.aspx?CLNG=F

Simply press the **Start** button at the end of the page and follow the on-screen instructions.
